Nivaldo Tro Chemistry A Molecular Approach:

Chemistry Nivaldo J. Tro, 2010-05-27 **Chemistry** Nivaldo Tro, 2017-01-04 Bestselling author Nivaldo Tro's premise is that matter is particulate; it is composed of molecules; the structure of those particles determines the properties of matter. This core idea is the inspiration for his seminal text *Chemistry: Structure and Properties*. Dr. Tro emphasizes the relationship between structure and properties, establishes a unique approach to teaching chemistry by presenting atomic and bonding theories early in the course, and stresses key concepts and themes in text, images, and interactive media. The book is organized to present chemistry as a logical, cohesive story from the microscopic to the macroscopic so students can fully grasp the theories and framework behind the chemical facts. Each topic is carefully crafted to convey to students that the relationship between structure and properties is the thread that weaves all of chemistry together. **Chemistry** Nivaldo J. Tro, 2019-01-04 NOTE: This loose leaf, three-hole punched version of the textbook gives you the flexibility to take only what you need to class and add your own notes all at an affordable price. For loose leaf editions that include MyLab™ or Mastering™, several versions may exist for each title, and registrations are not transferable. You may need a Course ID provided by your instructor to register for and use MyLab or Mastering products. For courses in chemistry: Actively engage students to become expert problem solvers and critical thinkers. Nivaldo Tro's *Chemistry: A Molecular Approach* presents chemistry visually through multi-level images, macroscopic, molecular, and symbolic representations to help students see the connections between the world they see around them, the atoms and molecules that compose the world, and the formulas they write down on paper. Interactive digital versions of select worked examples instruct students how to break down problems using Tro's unique Sort, Strategize, Solve, and Check technique, and then complete a step in the example. To build conceptual understanding, Dr. Tro employs an active learning approach through interactive media that requires students to pause during videos to ensure they understand before continuing. The 5th Edition pairs digital pedagogical innovation with insights from learning design and educational research to create an active, integrated, and easy-to-use framework. The new edition introduces a fully integrated book and media package that streamlines course set-up, actively engages students in becoming expert problem solvers, and makes it possible for professors to teach the general chemistry course easily and effectively. Also available with Mastering Chemistry. By combining trusted author content with digital tools and a flexible platform, MyLab or Mastering personalizes the learning experience and improves results for each student. The fully integrated and complete media package allows instructors to engage students before they come to class, hold them accountable for learning during class, and then confirm that learning after class. NOTE: You are purchasing a standalone product; Mastering™ Chemistry does not come packaged with this content. Students, if interested in purchasing this title with Mastering Chemistry, ask your instructor to confirm the correct package ISBN and Course ID.
