No Place for Ethics T. Patrick Hill, 2021-10-01 In No Place for Ethics Hill argues that contemporary judicial review by the U S Supreme Court rests on its mistaken positivist understanding of law law simply because so ordered as something separate from ethics Further to assert any relation between the two is to contaminate both either by turning law into an arm of ethics or by making ethics an expression of law This legal positivism was on full display recently when the Supreme Court declared that the CDC was acting unlawfully by extending the eviction moratorium to contain the spread of the Covid 19 Delta variant something that the Court admitted was of indisputable benefit to the public How mistaken however to think that acting for the good of the public is to act unlawfully when actually it is to act ethically and must therefore be lawful To address this mistake Hill contends that an understanding of natural law theory provides the basis for a constitutive relation between ethics and law without confusing their distinct role in answering the basic question how should I behave in society To secure that relation the Court has an overriding responsibility when carrying out its review to do so with reference to normative ethics from which the U S Constitution is derived and to which it is accountable While the Constitution confirms for example the liberty interests of individuals it does not originate those interests which have their origin in human rights that long preceded it Essential to this argument is an appreciation of ethics as objective and based on principles like those of justice truth and reason that ought to inform human behavior at its very springs Applied in an analysis of five major Supreme Court cases this appreciation of ethics reveals how wrongly decided these cases are

McNab,2009-10-01 Aboriginal policy and claims negotiation in Canada is seen to be a murky and perplexing world that has become an important public issue and has significant policy implications for government spending Aboriginal land policy in Canada began as an Aboriginal initiative In No Place for Fairness David McNab a long time advisor on land and treaty rights for both government and First Nations groups looks at the Bear Island Indigenous rights case initiated by the Teme Augama Anishinabe to explore why governments fail to deal effectively with Aboriginal land claims The book divided into two sections includes a survey of the historical background of the Bear Island claim followed by a more personal series of reflections about what happened as the claim encountered decades of policy hurdles court cases public protests and above all resistance by the Temagami First Nation McNab provides details of how ministers and their senior officials resisted real efforts to resolve problems as well as examples of field staff resisting government attempts at resolution He also shows that government entities such as the Indian Commission of Ontario and the Native Affairs Directorate were largely used as mailboxes where successive federal and provincial governments sent things they wanted to bury No Place for Fairness is the story of what happens when Aboriginal peoples political rights are crammed into the Euro Canadian legal system McNab makes a clear case that a legalistic approach to these problems is wholly inadequate and that more important things like fairness must be recognized as paramount if a just and lasting Aboriginal land policy is to be created Is There No Place on Earth for Me Susan Sheehan,2014-01-14 This renowned journalist s classic Pulitzer Prize winning investigation of schizophrenia now reissued with a new postscript follows a flamboyant and fiercely intelligent young woman as she struggles in the throes of mental illness Sylvia Frumkin was born in 1948 and began showing signs of schizophrenia in her teens She spent the next seventeen years in and out of mental institutions In 1978 reporter Susan Sheehan took an interest in her and
