Woliver,2010-10-01 A searing study of how modern reproductive politics shapes women s bodily agency Pregnancy indisputably takes place within a woman s body But as reproductive power finds its way into the hands of medical professionals lobbyists and policymakers the geographies of pregnancy are shifting and the boundaries need to be redrawn argues Laura R Woliver The Political Geographies of Pregnancy is a vigorous analysis of the ways modern reproductive politics are shaped by long standing debates on abortion and adoption surrogacy arrangements new reproductive technologies medical surveillance and the mapping of the human genome Across a politically charged backdrop of reproductive issues Woliver exposes strategies that claim to uphold the best interests of children families and women but in reality complicate women s struggles to have control over their own bodies Utilizing feminist standpoint theory and promoting a feminist ethic of care Woliver looks at abortion politics modern adoption laws that cater to male headed families regulations that allow the state to monitor pregnant women but not always provide care for them and the power structures behind the seemingly benign world of egg selling and surrogate parenting She also considers the potentially staggering political implications of mapping the human genome and the exclusion of women s perspectives in discussions about legislation and advancements in reproductive technologies **Crossing the Blue Willow Bridge** Nancy McCabe,2011-11-01 Even before Nancy McCabe and her daughter Sophie left for China it was clear that as the mother of an adopted child from China McCabe would be seeing the country as a tourist while her daughter who was

seeing the place for the first time in her memory was going home Part travelogue part memoir *Crossing the Blue Willow Bridge* immerses readers in an absorbing and intimate exploration of place and its influence on the meaning of family A sequel to *Meeting Sophie* which tells McCabe's story of adopting Sophie as a single woman *Crossing the Blue Willow Bridge* picks up a decade later with a much different Sophie a ten year old with braces who wears black nail polish sneaks eyeliner wears clothing decorated with skulls and has mixed feelings about being one of the few non white children in the little Pennsylvania town where they live Since she was young Sophie had felt a closeness to the country of her birth and held it in an idealized light At ten she began referring to herself as Asian instead of Asian American It was McCabe's hope that visiting China would help her become comfortable with both sides of the hyphen figure out how to be both Chinese and American together As an adoptive parent of a foreign born child McCabe knows that homeland visits are an important rite of passage to help children make sense of the multiple strands of their heritage create their own hybrid traditions and find their particular place in the world Yet McCabe still reeling from her mother's recent death wonders how she can give any part of Sophie back to her homeland She hopes that Sophie will find affirmation and connection in China even as she sees firsthand some of the realities of China overpopulation pollution and an oppressive government but also worries about what that will mean for their relationship Throughout their journey on a tour for adopted children mother and daughter experience China very differently New tensions and challenges emerge illuminating how closely intertwined place is with sense of self As the pair learn to understand each other they lay the groundwork for visiting Sophie's orphanage and birth village life changing experiences for them both

Adopted Women and Biological Fathers Elizabeth Hughes, 2017-03-01 *Adopted Women and Biological Fathers* offers a critical and deconstructive challenge to the dominant notions of adoptive identity The author explores adoptive women's experiences of meeting their biological fathers and reflects on personal narratives to give an authoritative overview of both the field of adoption and the specific history of adoption reunion This book takes as its focus the narratives of 14 adopted women as well as the partly fictionalised story of the author and examines their experiences of birth father reunion in an attempt to dissect the ways in which we understand adoptive female subjectivity through a

psychosocial lens Opening a space for thinking about the role of the discursively neglected biological father this book exposes the enigmatic dimensions of this figure and how telling the relational story of reconciliation might be used to complicate wider categories of subjective completeness belonging and truth This book attempts to subvert the culturally normative unifying system of the mother child bond and prompts the reader to think about what the biological father might represent and how his role in relation to adoptive female subjects may be understood This book will be essential reading for those in critical psychology gender studies narrative work sociology and psychosocial studies as well as appealing to anyone interested in adoption issues and female subjectivity

Growing in the Dark Janine M. Baer, 2004-05-28 Generations of adults who were adopted as children have been kept in the dark about their original identities The law sealing birth records passed in 1935 in California during the Great Depression swept adoptions emotional complexities under the rug and made it possible to keep adoption itself a secret Reflecting extensive archival research and written for general audiences as well as professionals Growing in the Dark Adoption Secrecy and Its Consequences takes you through Californias early adoption laws the sealing of records in the era of baby seller Georgia Tann and the various consequences of this policy as they unfolded throughout the 20th century WHAT REVIEWERS HAVE SAID articulate easy to read and filled with real facts concerning sealed records Jean Brown adoptee If you work or live with adoption you cannot afford to skip this book Everyone seeking to reverse outdated sealed records laws should also provide a copy of the slim paperback to their legislatures Mirah Riben author full of fascinating information you wont be able to put it down Anita Field Bastard Nation Janine Baer who was adopted in California focuses on the California law enacted in 1935 sealing original birth certificates Contrary to the popular perception the intent of this law was not to protect the privacy of birthmothers Rather these records were sealed to protect children from the stigma of illegitimacy to

protect adoptive parents from intrusions by birthparents to allow adoptive parents to keep the child's adoptive status a secret to create the illusion that the birthparents did not exist and to prevent adoptees from finding their birthfamilies This is an excellent book for birthparents adoptees and adoptive parents who want to know how we got to where we are Jane Edwards Portland Oregon Growing in the Dark by virtue of its modest length and accessibility can be used to educate people both within and outside of the adoption reform movement about the effects of sealed records and the faulty premises used to support them Barbara Busharis American Adoption Congress Decree Extensive notes and bibliographic information make it an excellent resource for those arguing for open records Sandra Falconer Pace Canadian Council of Natural Mothers Note on price Nonprofit organizations and resellers get 40% off Call Xlibris for these orders 1 888 795 4274 **Feminist Bookstore**
