Mobilizing For Human Rights Mobilizing For Human Rights:

Mobilizing for Human Rights Beth A. Simmons, 2009-10-29 Beth Simmons demonstrates through a combination of statistical analysis and case studies that the ratification of treaties generally leads to better human rights practices She argues that international human rights law should get more practical and rhetorical support from the international community as a supplement to broader efforts to address conflict development and democratization

Mobilizing for Human Rights in Latin America Edward L. Cleary, 2007 In the follow up to his widely read *The Struggle for Human Rights in Latin America* author Edward Cleary examines some of the robust human rights movements of the past two decades in *Mobilizing for Human Rights in Latin America* Advocates of the rights of women indigenous groups the landless and street children have achieved notable gains so much so that in 1999 the New York Times claimed that women have achieved more rights in Latin America than in any other region Cleary establishes a record of why how where and when human rights reached this level It is often assumed that the concept of human rights is something that must be imported by Western liberal democracies to developing countries Cleary shows that human rights has a long history in Latin America distinctive from other traditions and that this tradition has expressed itself profoundly since the military period He argues that the region s unique history is not only creating solutions to issues such as corruption and minority rights but also can offer a valuable balance to the larger international discourse on human rights

Legal Mobilization for Human Rights Gráinne De Búrca, 2022 This book is based on the specialized courses during the 2019 AEL summer course on Human Rights Law

Mobilizing for Human Rights Beth A. Simmons, 2009

Social Movements, Mobilization, and Contestation in the Middle East and North Africa Joel Beinin, Frédéric Vairel, 2013-08-21 Before the 2011 uprisings the Middle East and North Africa were frequently seen as a uniquely undemocratic region with little civic activism The first edition of this volume published at the start of the Arab Spring challenged these views by revealing a region rich with social and political mobilizations This fully revised second edition extends the earlier explorations of Egypt Morocco Lebanon Saudi Arabia and Turkey and adds new case studies on the uprisings in Tunisia Syria and Yemen The case studies are inspired by social movement theory but they also critique and expand the horizons of the theory s classical concepts of political opportunity structures collective action frames mobilization structures and repertoires of contention based on intensive fieldwork This strong empirical base allows for a nuanced understanding of contexts culturally conditioned rationality the strengths and weaknesses of local networks and innovation in contentious action to give the reader a substantive understanding of events in the Arab world before and since 2011

Legal Mobilization Under Authoritarianism Waikéung Tam, 2013 Using post colonial Hong Kong as a case study this book examines why and how legal mobilization arises in authoritarian regimes

The Handbook of Law and Society Austin Sarat, Patricia Ewick, 2015-06-22 Bringing a timely synthesis to the field *The Handbook of Law and Society* presents a comprehensive overview of key research findings theoretical developments and

methodological controversies in the field of law and society Provides illuminating insights into societal issues that pose ongoing real world legal problems Offers accessible succinct overviews with in depth coverage of each topic including its evolution current state and directions for future research Addresses a wide range of emergent topics in law and society and revisits perennial questions about law in a global world including the widening gap between codified laws and law in action problems in the implementation of legal decisions law s constitutive role in shaping society the importance of law in everyday life ways legal institutions both embrace and resist change the impact of new media and technologies on law intersections of law and identity law s relationship to social consensus and conflict and many more Features contributions from 38 international expert scholars working in diverse fields at the intersections of legal studies and social sciences Unique in its contributions to this rapidly expanding and important new multi disciplinary field of study Research Handbook on Law, Movements and Social Change Steven A. Boutcher, Corey S. Shdaimah, Michael W. Yarbrough, 2023-07-01 The study of law and social movements provides an ideal lens for rethinking fundamental questions about the relationship between law and power This Research Handbook takes up that challenge framing a new more global dynamic reflexive and contextualised phase of social movement studies *Legal Mobilization for Migrant Rights* Virginia Passalacqua, 2025-05-07 The European Court of Justice plays a key role in the interpretation and enforcement of EU law Yet we still know little about the conditions under which cases arrive at the Court via preliminary reference and why they are so unevenly distributed across the EU Member States Previous studies have shown how the legal elites played a central role in feeding the Court with cases to increase their power and influence Legal Mobilization for Migrant Rights tells a different story Focusing on the migration domain this book shows that EU litigation can also be used to defend powerless groups To explore the conditions under which EU legal mobilization for migrants emerges the author compares three countries where EU migration law was mobilized before the European Court of Justice Italy the UK and the Netherlands and one where it was not Greece Combining empirical and doctrinal methods this volume draws on interviews with key stakeholders and an original database of 505 migration preliminary references Rather than focusing only on courts Legal Mobilization for Migrant Rights sheds light on the role of lawyers academics and civil society in activating EU justice to oppose restrictive national migration policies Crucially the book ultimately reveals that EU legal mobilization struggles to emerge in some contexts due to a lack of resources and limited awareness of EU legal opportunities which stand as significant obstacles to justice and migrant rights enforcement **Humanitarianism and Human Rights** Michael N. Barnett, 2020-10-15 Explores the fluctuating relationship between human rights and humanitarianism and the changing nature of the politics and practices of humanity
