Protecting Innocence:

Protecting the Innocent United States. Congress. Senate. Committee on the Judiciary, 2002 **The Innocence Protection Act of 2000** United States. Congress. Senate. Committee on the Judiciary, 2002 **Deschooling the Imagination** Eric J Weiner, 2015-11-17 Deschooling the Imagination Critical Thought as Social Practice is first a book that looks at what it means to be actively engaged in developing a critical creative mindset against the prevailing ideology of our public schools Second it is a book about the social cultural relationship between what and how we learn on one hand and our imaginative capacities on the other Finally but equally important it is a book about how teachers can teach in the service of a revived critical creative imaginary In short you may be interested in reading this book if you are curious about examining the following questions in more depth How can educators and those involved and or invested in public education in the United States learn to think about curriculum assessment pedagogy school structures knowledge power identity language literacy economics creativity human ecology and our collective future in a way that escapes the over determined discourses that inform current attitudes and practices of schooling What are some of the tactics and strategies that teachers students parents administrators and policymakers can learn and enact in the service of a future that we can barely imagine

Innocence Protection Act of 2001 United States. Congress. House. Committee on the Judiciary. Subcommittee on Crime, Terrorism, and Homeland Security, 2002 **Trickbox of Memory** Felicitas Macgilchrist, Rosalie Metro, 2020 Reach into this trickbox of memory and rummage around you may find a tiny spaceship or perhaps a signpost a parade a raised fist an entire museum The essays in Trickbox of Memory Essays on Power and Disorderly Pasts draw on literary criticism post qualitative inquiry new materialism and political activism to dismember and reanimate the field of memory studies In the trickbox concepts rub up against each other pieces chip off things leak glitter gets everywhere Things are damaged their edges are ragged Some show the potential for repair in the future The chapters in this volume respond to the observation that in today s moment of political danger expected pasts can easily be instrumentalized in the service of fascism Trickbox of Memory interrupts the expected to throw history into disarray by focusing on the subtlety of how power relations are enacted and contested in reference to the past assembling a transnational constellation of scholars and practitioners who offer new tricks for working critically with disorderly pasts *The Presumption of Innocence* Andrew Stumer, 2010-06-14 The presumption of innocence is universally recognized as a fundamental human right and a core principle in the administration of criminal justice Nonetheless statutes creating criminal offences regularly depart from the presumption of innocence by requiring defendants to prove specific matters in order to avoid conviction Legislatures and courts seek to justify this departure by asserting that the reversal of the burden of proof is necessary to meet the community interest in prosecuting serious crime and maintaining workable criminal sanctions This book investigates the supposed justifications for limitation of

the presumption of innocence It does so through a comprehensive analysis of the history rationale and scope of the presumption of innocence It is argued that the values underlying the presumption of innocence are of such fundamental importance to individual liberty that they cannot be sacrificed on the altar of community interest In particular it is argued that a test of proportionality which seeks to weigh individual rights against the community interest is inappropriate in the context of the presumption of innocence and that courts ought instead to focus on whether an impugned measure threatens the values which the presumption is designed to protect The book undertakes a complete and systematic review of the United Kingdom and Strasbourg authority on the presumption of innocence It also draws upon extensive references to comparative material both judicial and academic from the United States Canada and South Africa

Modern Babylon? Heather Montgomery, 2001 Child prostitution became one of the key concerns of the international community in the 1990s World congresses were held international and national laws were changed and concern over commercially sexually exploited children rose dramatically Rarely however were the children who worked as prostitutes consulted or questioned in this process and the voices of these children brought into focus This book is the first to address the children directly to examine their daily lives their motivations and their perceptions of what they do Based on 15 months of fieldwork in a Thai tourist community that survived through child prostitution this book draws on anthropological theories on childhood and kinship to contextualize the experiences of this group of Thai child prostitutes and to contrast these with the stereotypes held of them by those outside their community

White Educators Negotiating Complicity Barbara Applebaum, 2021-11-17 While there is a proliferation of research on white educators who teach courses around anti racism White Educators Negotiating Complicity Roadblocks Paved with Good Intentions focuses on white educators who teach about whiteness to racially diverse groups of students and who acknowledge and attempt to negotiate their complicity in systemic injustice Scholars continue to remind white people of the paradox through which their endeavors to disrupt systemic white supremacy often reproduce it In this book Barbara Applebaum explores what it means to teach against whiteness while living that paradox Rather than an empirical study this book offers insights from recent scholarship surrounding critical whiteness and epistemic injustice and applies them to some

of the most trenchant challenges that white educators face while trying to teach about whiteness to racially diverse groups of students. Introducing the concept of a vigilantly vulnerable and informed humility, Applebaum both illuminates what theory can tell us about praxis and offers guidance for white educators in their attempts to negotiate the effects of white complicity on their pedagogy.
