Protestants Dautrefois Interieure Eglises Classic:

Society and Culture in the Huguenot World, 1559-1685 Raymond A. Mentzer, Andrew Spicer, 2002-01-10 The Huguenots formed a privileged minority within early modern France During the second half of the sixteenth century they fought for freedom of worship in the French wars of religion which culminated in the Edict of Nantes in 1598 The community was protected by the terms of the Edict for eighty seven years until Louis XIV revoked it in 1685 The Huguenots therefore constitute a minority group tolerated by one of the strongest nations in early modern Europe a country more often associated with the absolute power of the crown in particular that of Louis XIV This collection of essays explores the character and identity of the Huguenot movement by examining their culture and institutions their patterns of belief and worship and their interaction with French state and society The volume draws upon research by leading historians and specialists from across Europe and North America

Adaptations of Calvinism in Reformation Europe Mack P. Holt, 2016-03-16 Traditional historiography has always viewed Calvin's Geneva as the benchmark against which all other Reformed communities must inevitably be measured judging those communities who did not follow Geneva's institutional and doctrinal example as somehow inferior and incomplete versions of the original Adaptations of Calvinism in Reformation Europe builds upon recent scholarship that challenges this concept of the fragmentation of Calvinism and instead offers a more positive view of Reformed communities beyond Geneva The essays in this volume highlight the different paths that Calvinism followed as it took root in Western Europe and which allowed it to develop within fifty years into the dominant Protestant confession Each chapter reinforces the notion that whilst many reformers did try to duplicate the kind of community that Calvin had established most had to compromise by adapting to the particular political and cultural landscapes in which they lived The result was a situation in which Reformed churches across Europe differed markedly from Calvin's Geneva in explicit ways Summarizing recent research in the field through selected French German English and Scottish case studies this collection adds to the emerging picture of a flexible Calvinism that could adapt to meet specific local conditions and needs in order to allow the Reformed tradition to thrive and prosper The volume is dedicated to Brian G Armstrong whose own scholarship demonstrated how far Calvinism in seventeenth century France had become divided by significant disagreements over how Calvin's original ideas and doctrines were to be understood
