Psychodynamic and Psychoanalytic Supervision Christine Driver, 2025-08-26 In this comprehensive and informative book Christine Driver provides a systematic overview of the key issues that a supervisor of psychodynamic and psychoanalytic therapy needs to consider and understand in order to work effectively and dynamically Psychodynamic and Psychoanalytic

Supervision A Contemporary Introduction examines key elements of the supervisory role from container contract frames and boundaries to the dynamics of supervisory relationship unconscious processes including the reflection process and parallel process evaluation and assessment and ethics Driver considers the importance of learning and exploration for both supervisor and supervisee and provides guidance on how to effectively conduct these sessions She provides clinical examples of in person and online supervision and considers learning theory neuroscience and systemic ideas to support the reader on their own journey The systematic approach to the key dynamics are outlined to enable readers to generate understanding about the patient and their internal world as well as the development of the work of the supervisee with their patients Part of the Routledge Introductions to Contemporary Psychoanalysis series this book is a rich resource for all analysts counsellors and therapists who work psychodynamically or psychoanalytically as supervisors or who are conducting supervision training

A Three-Factor Model of Couples Therapy Robert Mendelsohn, 2017-08-07 Couple psychotherapy extends the work of the psychotherapist to the patient's most significant committed adult relationship yet the therapy is difficult both conceptually and technically One major reason for this difficulty is that in every couple's treatment there is a confusing array of psychological defenses as well as regressive and nonregressive couple object relations as distinct from the object relations that each individual member brings to the couple Further many of these processes are occurring outside consciousness and at the very same time This book is an attempt to clarify all the confusing issues by presenting a three factor model of couple psychotherapy within a psychodynamic framework This model has been found to be very effective with many different kinds of couples The book suggests that there are three powerful couple dynamics that shape every couple's treatment A the quality and quantity of the couple's projective identifications B the level of their couple object relations and C the presence or absence of the defense of omnipotent control These three variables are the most important factors in the therapy they determine the success or failure of every therapy with every couple These dynamics also determine quite a bit about how to conduct a couple therapy with regard to the therapist's level of activity tone the way of sorting the material in his or her head and even the kinds of interventions he/she chooses whether or not for example the therapist will use certain resistance techniques Understanding these three variables and how they interact is key to the success of the therapy

Supervision in Psychiatric Practice Sallie G. De Golia, M.D., M.P.H., Kathleen M. Psychotherapist Revealed Andrea Bloomgarden, Rosemary B. Mennuti, 2010-06-10 In this edited volume the real dialogue begins Therapists speak openly and honestly about their self disclosure practices decisions and clinical dilemmas Bloomgarden and Mennuti bring together research training and tales from their clinical

experience to illuminate lessons derived from their own journeys toward judicious balanced self disclosure practices In a readable fashion the stories highlight a variety of self disclosure and boundary issues that occur in the course of psychotherapy Numerous treatment modalities and clinical orientations are represented The collective wisdom offered through these stories which includes suggested guidelines and a standard of care for good practice will assist the reader in developing a better understanding of what it means to self disclose appropriately recognizing a flexible middle ground between too much and too little along with responsiveness to client need The Freudian based taboo that rigidly warns against all self disclosure is antiquated and a more reasonable balanced perspective is under way As a psychotherapeutic community including psychologists social workers art therapists counselors dance movement therapists who are all represented in this book it is time to talk openly about a balanced judicious and therapeutically appropriate approach to self disclosure and boundaries Bravely that is exactly what the authors in this book have done

Dimensions of Psychotherapy, Dimensions of Experience Michael Stadter, David E. Scharff, 2005-09-16 How do the fundamental elements of experience impact on the practice of psychotherapy *Dimensions of Psychotherapy Dimensions of Experience* explores the three basic elements of psychotherapy time space and number summarising theory setting it in context and bringing concepts to life with clinical illustrations Michael Stadter and David Scharff bring together contributions describing how each of these elements as well as their simple and direct manifestations in the physical world also combine to form the psychological dimensions of symbolic reality both in the inner world and in the transactional world They also reveal how in encounters between patient and therapist the combination of inner worlds form a new uniquely psychological fourth dimension that saturates the activity and experience of the other three elements This book aims to increase our understanding of the action of the three dimensions of psychotherapy by looking at the elements that constitute the setting and process in which clinicians engage every day The contributors all of whom are experienced psychotherapists and psychoanalysts connect their thinking on the dimensions to clinical practice by illustrating their ideas with case material and examining their impact on general treatment issues This book will be useful to practicing psychotherapists and psychoanalysts and students of psychoanalysis and philosophy
