Vitz, 1994 This is a virtually rewritten second edition of New York University Professor Paul Vitz s profoundly important analysis of modern psychology Vitz maintains that psychology in our day has become a religion a secular cult of self and has become part of the problem of modern life rather than part of its resolution **The Missionary Family** Dwight P. Baker, Robert J. Priest, 2014-08-29 The title of this book points to a feature the missionary family often considered to be a distinctive of the Protestant missionary movement Certainly the presence of missionary families in the field has been a central factor in enabling configuring and restricting Protestant missionary outreach What special concerns does sending missionary families raise for the conduct of mission What means are available for extending care and support to missionary families These issues are the focus of the chapters in part 1 of this book In recent years an increasing number of reports have surfaced of sexual abuse in mission settings Some reports have been based on recovered memories the assessment of which raises difficult questions Clearly sexual abuse in mission settings and how to understand allegations of abuse based on recovered memories are matters of grave concern to mission agencies and mission supporters as well as to missionary families Part 2 serves the mission community by scrutinizing such matters offering legal historical and psychological perspectives on the topic In a new feature Forum on Sexual Orientation and Mission An Evangelical Discussion the Evangelical Missiological Society takes up a pressing issue of our day Fourteen evangelical scholars participate in the discussion found in part 3 Far from being the final word this forum is presented with the prayer that it will serve as an opening to and basis for ongoing missiological conversation about an urgent and timely

Francis, David W. Lankshear, 1993 **Integrating Faith and Special Education** Bennett Nworie, 2016-10-10 There is an inherent connection between the Christian faith and special education For example both focus on the worth of the individual Both also focus on fairness and on caring for or helping the weak Similarly both aim to equip and support others This book helps the readers perceive this integral relationship that exists between the Christian faith and the special education discipline This book utilizes the chapters that stem from real life professional experiences and scholarship of the contributors to model and encourage special education practice from a Christian faith angle It is our view that special education practiced from this faith perspective will transform what is currently accepted as best practice into a new system of special education experience that is wholesome biblically based and characteristic of Shalom as wholeness not just peace Shalom in this sense has strong relevance in both the Christian faith and special education The first three chapters highlight the connection between special education and Christian theology and draw attention to the pivotal role worldview plays in being an effective special educator The bulk of the body of the text looks at different aspects of instructional effectiveness in special education from a Christian faith perspective *The Oxford Handbook of Religion and Education* Liam Francis Gearon, Arniika Kuusisto, 2025-04-29 The Oxford Handbook of Religion and Education offers a multi disciplinary work of scholarship and research highlighting the global significance of a critical interface of cultural and social political and theological importance Drawing on historical perspective and contemporary reflection the collection provides a uniquely transformative analysis of why the interface of

religion and education is of such critical significance With contributions from some of the leading thinkers in the field this Handbook presents a cumulatively powerful argument to reassess the complexities of the intersection of religion and education With ambitious and yet accessible intellectual engagements the Handbook here furthers a central thesis that the interface of religion and education is not merely a matter of arcane disputation about a domain of ancient origin or a rudimentary matter of formal educational process but a vibrant domain of critical contestation fundamental to knowing understanding and living in the modern world

Lee Barnett, Michael Severe, 2016-11-09 Ministry with Youth in Crisis is a comprehensive treatment of major adolescent crises related to life themes including self identity faith formation family life social relationships sexuality suicide substance abuse and eating disorders The distinctiveness of this book is that it offers a fine blend of solid research workable theory and specific strategies for successfully ministering to and with youth in crisis Furthermore it emphasizes the caring and sensitive side of working effectively with adolescents experiencing both normal and extreme crisis situations This volume therefore is both descriptive and prescriptive in nature in that it describes the world teens live in and offers biblical responses for ministry
