Revealing Architectural Design Philip D. Plowright, 2014-01-10 Revealing Architectural Design examines the architectural design process from the point of view of knowledge domains domain syntax coherence framing thinking styles decision making and testing Using straightforward language the book connects general design thinking to underlying frameworks that are used in the architectural design process The book provides historical grounding as well as clear examples of real design outcomes It includes diagrams and explanations to make that content accessible The frameworks and their methods are described by what they can accomplish what biases they introduce and the use of their final outcomes Revealing Architectural Design is an advanced primer useful to anyone interested in increasing the quality of their architectural design proposals through understanding the conceptual tools used to achieve that process While it is intended for undergraduate and graduate students of architectural design it will also be useful for experienced architectural practitioners For the non architect this book opens a window into the priorities of a discipline seldom presented with such transparency Topics and Methods for Urban and Landscape Design Roberta Ingaramo, Angioletta Voghera, 2017-03-27 This book combines urban planning and architectural tools in an attempt to overcome the limitations of sectoral measures In this perspective it offers a forum for the debate of different approaches used by schools of planning and architecture It explores strategies by drawing from the potential contributions of cognitive models for decisions the role of utopian thinking and retrofitting actions and their interconnectedness the role of cultural legacy for urban and landscape design the design perspectives about public spaces and the role of architecture design and urban and regional planning for landscape quality The book also discusses on design as a process of decision making that operates as an act of empathy that aligns with human and ecological values emotional physical and socio cultural Each planning and design act has different possible effects able to help making clear strategic and local actions contributing to community empowerment and to landscape and local governance Design activity along the river and multiple experiences design processes urban fringe design agri urban models river parks UNESCO sites River Contracts greenbelts and ecological networks through reflection on design roles helping to understand the design process and its results at different scales Roberta Ingaramo architect PhD is Assistant Professor in Architectural and Urban Design Department of Architecture and Design DAD Polytechnic University of Turin Italy Master in Conservation of Historic Towns and Buildings Katholieke Universiteit Belgium roberta.ingaramo.polito.it Angioletta Voghera architect PhD is Associate Professor of Urban and Regional Planning Inter university Department of Urban and Regional Studies and Planning DIST Polytechnic University of Turin Italy angioletta.voghera.polito.it A Biophilic Design Guide to Environmentally Sustainable Design Studios Niranjika Wijesooriya, Arianna Brambilla, Lina Markauskaite, 2022-11-06 This book explores the current challenges of teaching biophilic design within environmentally sustainable design ESD education It shows how design frameworks and success matrices can be used within ESD education explores the development of biophilic design

frameworks and shows how design thinking can be used to adopt biophilic design within ESD education. It introduces the new Process Bridging Technique (PBT) that can be used to generate sustainable design frameworks able to fulfil the requirements of a performance based approach and at the same time enhance human nature connectedness. Based on an educational design research project developed in the past two years at the University of Sydney, this book informs new approaches to ESD education and bridges the spheres of research, education and profession. It serves as a practical guide on how to systematically develop a design framework that can be used in architecture education while presenting the pioneering Process Bridging Technique developed by the authors.

Handbook of Research on Multidisciplinary Approaches to Literacy in the Digital Age Taskiran, Nurdan Oncel, 2019-11-29. The fast pace of technology in this day and age has made it difficult for individuals to stay informed without becoming lost in the folds of an information overload. Methods used to narrow down information are becoming just as important as providing the information to be discovered. The Handbook of Research on Multidisciplinary Approaches to Literacy in the Digital Age is a pivotal reference source that provides vital research on the significance of being literate in the age of speed and technology. While highlighting topics such as e-advertising, mobile computing and visual culture, this publication explores the major issues society has in the information age and the methods of innovative achievements of public or private institutions. This book is ideally designed for researchers, academicians, teachers and business managers seeking current research on a variety of social sciences in terms of the digital age.

Collaboration and Student Engagement in Design Education Tucker, Richard, 2016-09-12. In order for educational systems not to become stagnant, teaching strategies must be routinely re-evaluated. Not only does this optimize the learning process, but it enhances the overall experience for the students. Collaboration and Student Engagement in Design Education is a pivotal reference source for the latest scholarly research on the implementation of teamwork between architecture students in design courses to enrich knowledge attainment and boost creativity. Highlighting pedagogical insights into team building and relevant case studies, this book is ideally designed for educators, students, administrators and professionals interested in the development of effective design programs.

Architectural Regeneration Aylin Orbasli, Marcel Vellinga, 2020-07-20. A comprehensive and detailed overview of the active regeneration, rehabilitation and revitalisation of architectural heritage. The combined processes of globalisation, urbanisation, environmental change, population growth and rapid technological development have resulted in an increasingly complex, dynamic and interrelated world in which concerns about the meaning of cultural heritage and identity continue to grow. As the need for culturally and environmentally sustainable design grows, the challenge for professionals involved in the management of inherited built environments is to respond to this ever-changing context in a critical, dynamic and creative way. Our knowledge and understanding of the principles, approaches and methods to sustainably adapt existing buildings and places is rapidly expanding. Architectural Regeneration contributes to this knowledge base through a holistic approach that links policy with practice and establishes a

theoretical framework within which to understand architectural regeneration It includes extensive case studies of the regeneration rehabilitation and revitalisation of architectural heritage from around the world Different scales and contexts of architectural regeneration are discussed including urban suburban rural and temporary At a time when regeneration policy has shifted to the recognition that heritage matters and that the historic environment and creative industries are a vital driver of regeneration an increasing workload of architectural practices concerns the refurbishment adaptive re use or extension of existing buildings As a result this book is ideal for undergraduate and graduate students of architecture historic conservation urban and environmental design sustainability and urban regeneration as well as for practitioners and decision makers working in those fields *Building Rehabilitation and Sustainable Construction* João M. P. Q. Delgado, 2022-03-14 This book provides a collection of recent research works related to building pathologies recycled materials case studies and practical advices on implementation of sustainable construction It is divided in seven chapters that intend to be a resume of the current state of knowledge for benefit of professional colleagues scientists students practitioners lecturers and other interested parties to network At the same time these topics will be going to the encounter of a variety of scientific and engineering disciplines such as civil mechanical and materials engineering **Proceedings of the 26th International Symposium on Advancement of Construction Management and Real Estate** Hongling Guo, Dongping Fang, Weisheng Lu, Yi Peng, 2022-09-01 This book of CRIOCM 2021 26th International Conference on Advancement of Construction Management and Real Estate presents the latest developments in real estate and construction management around the globe The conference was organized by the Chinese Research Institute of Construction Management CRIOCM working in close collaboration with Tsinghua University Written by international academics and professionals the book discusses the latest achievements research findings and advances in frontier disciplines in the field of construction management and real estate Covering a wide range of topics including building information modeling big data geographic information systems housing policies management of infrastructure projects intelligent construction and smart city real estate finance and economics and urban planning and sustainability the discussions provide valuable insights into the implementation of advanced construction project management and real estate market in China and abroad The book offers an outstanding resource for academics and professionals *Design for Partnerships for Change* Sandi Hilal, Merve Bedir, Mette Ramsgaard Thomsen, Martin Tamke, 2023-09-27 Architecture has played a very important role in colonization of the society and the earth and today we have the urgent task to crack the theory and practice of this same Architecture We can achieve this only by working collectively towards reframing concepts that has been at the centre of a dominant universalist western knowledge creation Rethinking and reframing the ideals of community participation commons agency design and land this book puts forward a collective effort to shift the centre of architectural thinking and practice and create as many ways possible to understand our role as architects today We acknowledge unrecognized practices by bringing back everyday life experiences different paths

and forms of knowledge production and storytelling that inform our understanding of architecture The book is part of a series of six volumes that explore the agency of the built environment in relation to the SDGs through new research conducted by leading researchers The series is led by editors Mette Ramsgaard Thomsen and Martin Tamke in collaboration with the theme editors Design for Climate Adaptation Billie Faircloth and Maibritt Pedersen Zari Design for Rethinking Resources Carlo Ratti and Mette Ramsgaard Thomsen Eds Design for Resilient Communities Anna Rubbo and Juan Du Eds Design for Health Arif Hasan and Christian Benimana Eds Design for Inclusivity Magda Mostafa and Ruth Baumeister Eds Design for Partnerships for Change Sandi Hilal and Merve Bedir Eds Sustainability and the City Lauren Curtright, Doris Bremm, 2017-07-28 Sustainability and the City Urban Poetics and Politics contributes to third generation discourse on sustainable development by considering through a humanistic lens theories and practices of sustainability in a wide range of urban cultures It demonstrates cities inextricability from discussions on sustainability because not only is the world urbanizing at an unprecedented rate but also cities are primary locations of the circulation of excess capital socioeconomic divisions and hierarchies political resistance friction between human and non human worlds and the confluence of art policy and identity formation in placemaking With essays by scholars working in a variety of fields from architecture to literature to music to sociology this collection maintains that any hope for achieving urban sustainability will require taking seriously the ways in which cities are imagined Efforts to make cities sustainable must fully incorporate the humanities because critical endeavors and creative expressions that fall within the purview of the humanities are vital to closing the conceptual gulf as well as the practical gap between human and non human conservation Even if the environmental humanities embrace cities critics must ask whether coalescing the terms sustainability and city may actually obstruct human action to combat climate change which from some angles seems impending self imposed apocalypse To examine the urban turn Sustainability and the City attends to culture Essays in the first part of the collection approach urban sustainability from various disciplinary vantage points to emphasize history ideology pedagogy and critical theory The second part of the collection analyzes urban commons on four different continents Finally the collection moves from a diverse set of interpretations of on the ground urban phenomena to a compilation of readings of sustainability in different media and genres sound art drama fiction and film set in or evocative of cities The collection carves out a place for artists and critics to help realize social justice in cities which generate remarkable power but power that is too often and too easily used destructively unfairly and wastefully despite cities unique capacities to inspire and sustain humanity
