An Alternative Reading of the Other in The Mahabharata Seema Sinha, Kumar Sankar Bhattacharya, 2025-03-13

This book studies gender sexuality and representation in The Mahabharata Drawing on Feminist theory Queer theory and Deconstructivist theory it revisits the epic as a saga of agency empowerment and subversion and examines how it gives the gendered marginal the women and the queer a voice The authors argue that in a fluid text like The Mahabharata there is ample scope for contradiction and conformation as well as conflict and resolution which gives the marginal an opportunity to document resistance They analyse the stories of Draupadi Kunti Renuka Ulupi and Hidimba within an anti patriarchal non normative post modern theoretical framework They also examine liminal figures like Shikhandi Yuvanashwa Sudyumna and Bhangashwan who are uniquely placed in conversation involving queer space marginalization and resistance An important addition to the study of Indian epics this book will be indispensable for scholars and researchers of cultural studies subaltern studies Indian literature English literature gender studies sexuality studies queer studies women s studies exclusion studies and postcolonial studies

When Rape Goes Viral Anna Gjika, 2023-12-05 Stories of teen sexting scandals cyberbullying and image based sexual abuse have become commonplace fixtures of the digital age with many adults struggling to identify ways to monitor young people s digital engagement In When Rape Goes Viral Anna Gjika argues that rather than focusing on surveillance we should examine such incidents for what they tell us about youth peer cultures and the gender norms and sexual ethics governing their interactions Drawing from interviews with teens and high profile cases of mediated juvenile sexual assault Gjika exposes the deeply unequal and heteronormative power dynamics informing teens intimate relationships and online practices and she critically interrogates the role of digital cultures and broader social values in sanctioning abuse The book also explores the consequences of social media and digital evidence for young victim survivors and perpetrators of sexual assault detailing the paradoxical capacities of technology for social and legal responses to gender based violence

a vote of faith in Canada in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated At the start of a new century and a new millennium in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the 23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry A mari usque ad mare from sea to sea which is Canada's motto and a good description of this volume's range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known Yet now Canada's finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada
