Revolution and Economic Transition Hooshang Amirahmadi, 1990-10-26 Amirahmadi focuses on the Iranian economy under the Islamic Republic a subject that remains largely neglected in post revolutionary Iranian research and analysis Drawing from a wealth of primary sources he uses an empirical logical framework of analysis within a modified world system perspective to offer a detailed and balanced picture of the macroeconomic trends problems and policies since 1976 **Class**

and Labor in Iran Farhad Nomani, Sohrab Behdad, 2006-06-19 In the past twenty five years Iran has experienced a revolution and a turbulent postrevolutionary period under an Islamic state that declared itself the government of the oppressed while it struggled to establish a utopian Islamic economy In this pioneering work Farhad Nomani and Sohrab Behdad provide a comprehensive analysis of the dynamics of change and class configuration in Iranian society Using an empirical framework they map the trajectory of class changes over time specifically noting the movements between prerevolutionary and postrevolutionary Iran A centerpiece of the book is its analysis of the changes in the pattern of employment of women in the postrevolutionary period Despite its conceptual and quantitative approach the book is written in a clear and lucid style making it accessible to a wide audience The authors provide a fresh look into Iranian society by exploring the changes in its essential underlying economic structure and in doing so they lay the foundation for comparative studies of the social hierarchy of labor in other Middle Eastern countries **The Political Economy of Sanctions:**

Resilience and Transformation in Russia and Iran Ksenia Kirkham, 2022-08-25 This book presents a comparative analysis of Russia and Iran under sanctions Whilst the growing literature on sanctions has focused primarily on their effectiveness much less attention has been paid to the ways in which sanctions have transformed target societies and states Despite or indeed because of the relentless enactment of sanctions Russia and Iran have become increasingly Hobbesian in their governance more self reliant less democratic and more aggressive towards the West The author explores these developments through a novel Welfare State Regime framework WSR that combines welfare state functionality with institutional economic and cultural structural dimensions **Reconstruction and Regional Diplomacy in the Persian**

Gulf H. Amirahmadi, N. Entessar, 2023-05-26 First Published in 1992 Reconstruction and Regional Diplomacy in the Persian Gulf goes beyond a description of the recent events by analysing the social political and economic patterns of interaction between the Gulf states The argument is strengthened by a consideration of the role of the superpowers in the region s political discourse and of religion as a force for a change Not only do the authors provide an easily accessible basis for

explaining the current problems in the region but they also offer their own sometimes provocative policy prescriptions This book is an important read for scholars and researchers of Middle East politics and Middle East history *The Islamic Republic of Iran* Jahangir Amuzegar,2014-09-25 This title provides an in depth study of Iran s post 1979 Revolution economy under the Islamic Republic with new material and related journal articles combined under one roof in a novel and reader friendly style The volume starts with an original text summarizing the development of the Iranian economy under five successive administrations in five distinct phases Following this are fifteen accompanying articles providing detailed information that expands on and compliments the discussion in the original material Appropriate references on specific topics are made to each relevant article ensuring the material is easily accessible to the reader Topics discussed include public finance employment banking petroleum privatization and the exchange rate Full references are also made to US and universal economic sanctions and their effects with the legacies of the Khatami and Ahmadinejad administrations also covered This versatile title is designed to appeal to a vast readership The hurried business executive or high government official interested in a quick review of the subject matter may simply read the original text while think tank researchers research fellows and students can take the time to read the supplementary articles and review what is related to the topic of their choosing *American Journal of Islamic Social Sciences* 8:2 Louay M.
