Understanding Human Dignity Christopher McCrudden, 2013-11-21 The concept of human dignity has become central to politics law and theology but is little understood This book presents a wide ranging collection of edited essays from specialists in law theology politics and history and seeks to define the main areas of current debates about the concept in these disciplines

The Betrayal of Witness Stanley Hauerwas, Hans S. Reinders, 2024-04-16 The downfall of Jean Vanier due to the history of sexual abuse that came to light in 2020 has shocked everyone familiar with his life and work as the founder and leader of L'Arche The authors in this book raise significant questions regarding his influential legacy and its relevance for theology and disability and for L'Arche in particular Without any attempt to whitewash or downplay the seriousness of his transgressions the question cannot be avoided to sort out the good and the bad in Vanier It requires soul searching on the part of his theological heirs and those who have been influenced by him Finally his work with and influence upon L'Arche raises the question of sustainability and how its communities might or might not be shaped by his tarnished legacy

Reconsidering Intellectual Disability Jason Reimer Greig, 2015-11-02 Drawing on the controversial case of Ashley X a girl with severe developmental disabilities who received interventionist medical treatment to limit her growth and keep her body forever small a procedure now known as the Ashley Treatment *Reconsidering Intellectual Disability* explores important questions at the intersection of disability theory Christian moral theology and bioethics What are the biomedical boundaries of acceptable treatment for those not able to give informed consent Who gets to decide when a patient cannot communicate their desires and needs Should we accept the dominance of a form of medicine that identifies those with intellectual impairments as pathological objects in need of the normalizing bodily manipulations of technological medicine In a critical exploration of contemporary disability theory Jason Reimer Greig contends that L'Arche a federation of faith communities made up of people with and without intellectual disabilities provides an alternative response to the predominant bioethical worldview that sees disability as a problem to be solved *Reconsidering Intellectual Disability* shows how a focus on Christian

theological tradition's moral thinking and practice of friendship with God offers a way to free not only people with intellectual disabilities but all people from the objectifying gaze of modern medicine. L. Arche draws inspiration from Jesus's solidarity with the least of these and a commitment to Christian friendship that sees people with profound cognitive disabilities not as anomalous objects of pity but as fellow friends of God. This vital act of social recognition opens the way to understanding the disabled not as objects to be fixed but as teachers whose lives can transform others and open a new way of being human.

Church on the Way Nell Becker Sweeden, 2015-07-17 The practice of Christian hospitality reaches back to the early centuries of Christian life as well as deep into Jewish history, life, and Scripture. This practice is alive today in Christian churches and in parachurch organizations within the United States, but new contextual realities in particular twenty-first century global migration patterns have altered the conditions under which hospitality is practiced. The reality of migration and its effect on human lives disrupts static conceptions of hospitality and challenges ecclesial communities toward contextual appropriation of hospitality practice. This volume explores Christian hospitality practice in light of twenty-first century U.S. Latino migration and it develops the notion of a journeying hospitality of accompaniment with and among persons migrating, which fosters deeper relationships and formation. The shifting identities of persons on the move challenge assumptions about what it means to welcome another in hospitality and ultimately what it means to be church from within these new relationships. In turn, the new conceptions and expressions of hospitality offered in this book press how the nature and mission of the church will be oriented toward new ecclesial patterns and alternative forms of residing on earth.

Theology, Disability, and Spiritual Transformation Michael Hryniuk, 2010 In this study, Michael Hryniuk develops a full phenomenological, psychological, and theological account of spiritual transformation in the context of L. Arche, a federation of Christian communities that welcome persons with learning disabilities. The book begins with a critical examination of current perspectives on spiritual transformation in theology and Christian spirituality and constructs a new foundational formulation of transformation as a shift in consciousness, identity, and behavior. Through extensive analysis of the narratives of the caregiver assistants who share life with those who are disabled, this case study reveals an alternative vision of the three-fold way that unfolds through a series of profound awakenings in relationships of mutual care and presence: an awakening to the capacity to love, to bear inner anguish and darkness, and to experience radical human and divine acceptance. The book examines the psychological dimensions of spiritual transformation through the lens of contemporary affect theory and explores how caregivers experience a profound healing of shame in their felt sense of identity and self-worth.
