Outlaws Of America The Weather Underground And The Politics Of Solidarity

Brian D. Behnken

Outlaws Of America The Weather Underground And The Politics Of Solidarity:

Outlaws of America Dan Berger, 2006 The fiery true story of America's most famous radical fugitives urgently and passionately told Kritiek 2008 Bart van der Steen, 2008-06-10 This title can be previewed in Google Books <http://books.google.com/books/vid/ISBN9789052603032> Rhet Ops Jim Ridolfo, William Hart-Davidson, 2019-10-03 In this edited volume authors seek to document and analyze how state and non state actors leverage digital rhetoric as a twenty first century weapon of war Rhet Ops offer readers a chance to focus on the human dimension of rhetorical practice within mobile technologies and social networks to reflect not only on the durable question of what it means to conduct oneself ethically as a speaker or writer but also what it means to learn the art of rhetoric as a means to engage adversaries in war and conflict

The politics of betrayal Ashley Lavelle, 2015-11-01 The radical who becomes a conservative is a common theme in political history Benito Mussolini the Italian socialist who became a fascist is the best known example but there have been many others including the numerous American Trotskyists and Marxists who later became neo conservatives anti communists or in some instances McCarthyists The politics of betrayal examines why several one time radicals subsequently became part of the establishment in various countries including the former Black Panther Party leader turned Republican Eldridge Cleaver the Australian communist Adela Pankhurst who became an admirer of the Nazis and the ex radical journalist Christopher Hitchens whose defection to the neo conservative camp of George W Bush's administration following 11 September 2001 offers one of the most surprising instances of the phenomenon in recent times How and why do so many radicals betray the cause What implications does it have for left politics Were the ex radicals right to become conservatives This book the first of its kind answers these and more questions *Direct Action* L.A. Kauffman, 2017-02-21 A longtime insider explores the origins of modern protest movements like Black Lives Matter and Occupy Wall Street offering a groundbreaking history of disruptive protest and American radicalism since the Sixties As Americans take to the streets in record numbers L A Kauffman's timely trenchant history of protest offers unique insights into how past movements have won victories in times of crisis and backlash and how they can be most effective today This deeply researched account twenty five years in the making traces the evolution of disruptive protest since the Sixties to tell a larger story about the reshaping of the American left Kauffman a longtime grassroots organizer examines how movements from ACT UP to Occupy Wall Street to Black Lives Matter have used disruptive tactics to catalyze change despite long odds Kauffman's lively and elegant history is propelled by hundreds of candid interviews conducted over a span of decades Direct Action showcases the voices of key players in an array of movements environmentalist anti nuclear anti apartheid feminist LGBTQ anti globalization racial justice anti war and more across an era when American politics shifted to the right and a constellation of decentralized issue and identity based movements supplanted the older ideal of a single unified left Now as protest movements again take on a central and urgent political role Kauffman's history offers both striking lessons for the current moment and an unparalleled

overview of the landscape of recent activism Written with nuance and humor Direct Action is essential reading for anyone interested in understanding the protest movements of our time The best overview of how protest works when it does and what it s achieved over the past 50 years Rebecca Solnit The New York Times

Civil Rights and Beyond Brian D. Behnken,2016-04 Civil Rights and Beyond examines the dynamic relationships between African American and Latino a activists in the United States from the 1930s to the present day Building on recent scholarship this book pushes the timeframe for the study of interactions between blacks and a variety of Latino a groups beyond the standard chronology of the civil rights era As such the book merges a host of community histories each with their own distinct historical experiences and activists to explore group dynamics differing strategies and activist moments and the broader quests of these communities for rights and social justice The collection is framed around the concept of activism which most fully encompasses the relationships that blacks and Latinos have enjoyed throughout the twentieth century Wide ranging and pioneering Civil Rights and Beyond explores black and Latino a activism from California to Florida Chicago to Bakersfield and a host of other communities and cities to demonstrate the complicated nature of African American Latino a activism in the twentieth century United States Contributors Brian D Behnken Dan Berger Hannah Gill Laurie Lahey Kevin Allen Leonard Mark Malisa Gordon Mantler Alyssa Ribeiro Oliver A Rosales Chanelle Nyree Rose and Jakobi Williams

The Cultural Left and the Reagan Era Nick Witham,2015-06-24 The Reagan era is usually seen as an era of unheralded prosperity and as a high watermark of Republican success President Ronald Reagan s belief in Reaganomics his media friendly sound bites and can do personality have come to define the era However this was also a time of domestic protest and unrest Under Reagan the US was directly involved in the revolutions which were sweeping the Central Americas El Salvador Honduras and Guatemala and in Nicaragua Reagan armed the Contras who fought the Sandinistas This book seeks to show how the left within the US reacted and protested against these events The Nation Verso Books and the Guardian exploded in popularity riding high on the back of popular anti interventionist sentiment in America while the film maker Oliver Stone led a group of directors making films with a radical left wing message The author shows how the1980s in America were a formative cultural period for the anti Reaganites as well as the Reaganites and in doing so charts a new history

Bob Dylan Jeffrey Edward Green,2024 In Bob Dylan Prophet Without God Jeffrey Edward Green defends the idea of Bob Dylan as a modern day prophet albeit a prophet of an unprecedented type Placing Dylan into conversation with a wide array of intellectual figures Green argues that Dylan is not a prophet of salvation but rather a prophet without God Dylan speaks to the ideals that have animated earlier prophets but breaks from past tradition by testifying to the conflicts between these ideals leading him to make novel contributions to the meaning of self reliance the quest for rapprochement between the religious and non religious and the problem of how ordinary people might operate in a fallen political world

The Bad Sixties Kristen Hoerl,2018-06-14 Winner of the 2018 Book Award from the American Studies Division of the National Communication

Association Ongoing interest in the turmoil of the 1960s clearly demonstrates how these social conflicts continue to affect contemporary politics In *The Bad Sixties Hollywood Memories of the Counterculture Antiwar and Black Power Movements* Kristen Hoerl focuses on fictionalized portrayals of 1960s activism in popular television and film Hoerl shows how Hollywood has perpetuated politics deploring the detrimental consequences of the 1960s on traditional American values During the decade people collectively raised fundamental questions about the limits of democracy under capitalism But Hollywood has proved dismissive if not adversarial to the role of dissent in fostering progressive social change Film and television are salient resources of shared understanding for audiences born after the 1960s because movies and television programs are the most accessible visual medium for observing the decade s social movements Hoerl indicates that a variety of television programs such as *Family Ties* *The Wonder Years* and *Law and Order* along with Hollywood films including *Forrest Gump* have reinforced images of the bad sixties These stories portray a period in which urban riots antiwar protests sexual experimentation drug abuse and feminism led to national division and moral decay According to Hoerl these messages supply distorted civics lessons about what we should value and how we might legitimately participate in our democracy These warped messages contribute to selective amnesia a term that stresses how popular media renders radical ideas and political projects null or nonexistent Selective amnesia removes the spectacular events and figures that define the late 1960s from their motives and context flattening their meaning into reductive stereotypes Despite popular television and film Hoerl explains memory of 1960s activism still offers a potent resource for imagining how we can strive collectively to achieve social justice and equality

[For the Wild](#) Sarah M. Pike, 2017-09-19 *For the Wild* explores the ways in which the commitments of radical environmental and animal rights activists develop through powerful experiences with the more than human world during childhood and young adulthood The book addresses the question of how and why activists come to value nonhuman animals and the natural world as worthy of protection Emotions and memories of wonder love compassion anger and grief shape activists protest practices and help us understand their deep rooted dedication to the planet and its creatures Drawing on analyses of activist art music and writings as well as interviews and participant observation in activist communities Sarah M Pike delves into the sacred duties of these often misunderstood and marginalized groups with openness and sensitivity
