Presence Of Mies Windows:

Great Windows in Modern Architecture Kevin Adams, 2024-03-29 Windows are moments in modern architecture where we look to ascertain elegance technical expression and material language or to capture a certain atmosphere A window opening is as much an interval and an opportunity as it is a device for admitting light air or views it is simultaneously a physical aperture but also a philosophical opening of collaboration and reflection In order to understand the language of a building we might look to the detail of the window But what does this mean and why does modern architecture invest so much expression in the window This book explores how the act of detailing and situating windows in buildings is a key proponent in the language of architecture which both informs and works with the contingencies of design and construction It investigates 18 case studies in depth using painstakingly drawn details and vivid photographs in full colour to define what makes these windows great and how each window is situated within both its technical and philosophical context and as an overall development of modern architecture Case studies include the work of Walter Gropius Mies van der Rohe Pierre Chareau Frank Lloyd Wright Alvar Aalto Carlo Scarpa Le Corbusier Stirling and Gowan Raili and Reima Pietil Louis Kahn Peter Womersley Miralles Pin s Steven Holl Glen Murcutt and O Donnell Tuomey *How To Win Work* Jan Knikker, 2021-03-01 You are a great designer but no one knows Now what This indispensable book written by one of the most influential marketers in architecture will demystify Public Relations and marketing for all architects whether in large practices or practicing as sole practitioners It bridges the distance between architects and marketing by giving practical tips best practice and anecdotes from an author with 20 years experience in architecture marketing It explains all aspects of PR and Business Development for architects for example how to write a good press release how to make a fee proposal how to prepare for a pitch It gives examples of how others do it well and the pitfalls to avoid In addition it discusses more general aspects which are linked to PR and BD such as being a good employer ethics for architects and the challenges when working abroad Featuring vital insights from a wide variety of architects from multinational practices to small offices this book is an essential companion to any architectural office *Combinatorial Optimization and Theoretical Computer Science* Vangelis Th. Paschos, 2010-01-05 This volume is dedicated to the theme Combinatorial Optimization Theoretical Computer Science Interfaces and Perspectives and has two main objectives the first is to show that bringing together operational research and theoretical computer science can yield useful results for a range of applications while the second is to demonstrate the quality and range of research conducted by the LAMSADE in these areas Windows on the World of Jesus Bruce J. Malina, 1993-01-01 Malina has written an exceptionally clear accessible and student friendly introduction to the cultural world of Jesus and his disciples The windows or scenarios of typical cultural scenes cover the basic range of values and behaviors characteristic of the different cultural world of the Bible Jerome H Neyrey author of 2 Peter Jude *Practice* Stan Allen, 2009 Drawing on his own experience as a working architect Stan Allen s theoretical essays examine the ways in which

the tools available to the architect affect the design and production of buildings This new edition includes revised essays together with previously unpublished work Allen s seminal piece on Field Conditions is included in this reworked revised and redesigned volume

Mies van der Rohe - The Built Work Carsten Krohn,2014-06-17 This essential and comprehensive Mies monograph focuses in its analysis on Mies design intentions it reconstructs the buildings in their original state examines them from the present day perspective and rediscovers the inspiring architecture of a great modern master The book presents eighty of Mies works in chronological order Approximately thirty of these works are analyzed in detail in three parts In the first part the construction is documented in its built state for this all the ground plans were redrawn by the author The second part outlines the changes to the buildings and the third part develops the results of this investigation with regard to their relevance to the contemporary view of Mies work

A Certain Age Rudolf Mrázek,2010-04-16 An unconventional evocative work of history and a series of moving reflections on memory modernity space and time all based on the authors interviews with elderly Indonesian intellectuals
