Preventing And Treating Bullying And Victimization By Eric Vernberg 2010 03 25:

Preventing and Treating Bullying and Victimization Eric M. Vernberg, Bridget Biggs, 2010-03-25 Research evidence on bully victim problems has accumulated rapidly in recent years. From this there is little doubt that prolonged involvement in bullying as a perpetrator, victim, or not uncommonly as both a perpetrator and target of bullying conveys risk for many aspects of development. As in many emerging areas of psychological science, diverse research efforts evolved more or less independently, producing a very large and rich body of knowledge but making it difficult to gain a comprehensive integrated view of the overall evidence base. *Preventing and Treating Bullying and Victimization* looks across the sometimes disparate perspectives from school, clinical, and developmental researchers and professionals with an eye towards describing and integrating current knowledge into a guide for evidence-based practices and further research. The authors offer new directions for understanding this complex problem and for enhancing intervention approaches. This edited book will be comprised of three sections: Theoretical Perspectives, Assessment and Intervention, and Recommendations for Policy, Practice, and Research. It will be of interest to a number of professions and disciplines, including clinical, developmental, counseling, and school psychologists, social workers, school administrators, and educators, and public officials involved in setting policies.

Bullying, Victimization, and Peer Harassment Charles A. Maher, Joseph Zins, Maurice Elias, 2014-02-25 A comprehensive examination of theory, research, prevention, and intervention and professional practice issues in one source. Teasing, shunning, and bullying can have serious detrimental effects on both victim and perpetrator. *Bullying, Victimization, and Peer Harassment: A Handbook of Prevention and Intervention* comprehensively gathers emerging research, theory, and effective practice on this subject into one invaluable source. This thorough review of a wide spectrum of innovative, evidence-based practices targets the complex problems of victimization, peer harassment, and bullying in our schools. Interventions range from individuals and their peers to broad systems-level change within schools and communities. The challenge of prevention is also explored using the latest studies as a practical foundation. Suggestions are provided detailing effective strategies to make changes in the culture within schools while offering directions for future research and practice. *Bullying, Victimization, and Peer Harassment* discusses research on current intervention programs now in place that until now has never been evaluated. Several of the studies address middle school issues and multi-ethnic populations, including those from the United States, Canada, and Europe. Peer sexual harassment and dating-related aggression are examined that includes and goes beyond traditional views of bullying and peer intimidation. This valuable handbook provides concise yet extensive information on the most current theory, empirical research, practice guidelines, and suggestions for preparing schools for programmatic initiatives. Topics in *Bullying, Victimization, and Peer Harassment* include theory and conceptual issues in victimization, bullying, and peer harassment; assessment results from a four-year longitudinal study on peer victimization in early adolescents; youth perceptions toward bullying; high school students' victimization profiles; immigrant children and victimization; evaluating adolescent violence

prevention program a school based intervention program peer group intervention interventions for victims multiple perspectives involving sexual harassment school wide approaches to prevention and intervention and much more Bullying Victimization and Peer Harassment is a crucial resource for researchers and mental health professionals who work in schools and who work with children and their families such as school psychologists counselors clinical child psychologists social workers and community psychologists
