Osler's Web Inside The Labyrinth Of The Chronic Fatigue Syndrome Epidemic:

Osler's Web Hillary Johnson, 1996 In a masterful effort of investigative reporting freelance journalist Hillary Johnson reveals for the first time how Chronic Fatigue Syndrome was allowed to grow over the course of a decade into a major public health threat under the disbelieving and ultimately blind eye of the American medical research establishment **Plague** Kent Heckenlively, Judy Mikovits, 2017-02-21 On July 22 2009 a special meeting was held with twenty four leading scientists at the National Institutes of Health to discuss early findings that a newly discovered retrovirus was linked to chronic fatigue syndrome CFS prostate cancer lymphoma and eventually neurodevelopmental disorders in children When Dr Judy Mikovits finished her presentation the room was silent for a moment then one of the scientists said Oh my God The resulting investigation would be like no other in science For Dr Mikovits a twenty year veteran of the National Cancer Institute this was the midpoint of a five year journey that would start with the founding of the Whittemore Peterson Institute for Neuro Immune Disease at the University of Nevada Reno and end with her as a witness for the federal government against her former employer Harvey Whittemore for illegal campaign contributions to Senate Majority Leader Harry Reid On this journey Dr Mikovits would face the scientific prejudices against CFS wander into the minefield that is autism and through it all struggle to maintain her faith in God and the profession to which she had dedicated her life This is a story for anybody interested in the peril and promise of science at the very highest levels in our country *Chronic Fatigue Syndrome* Sylvia Engdahl, 2011-09-20 Chronic Fatigue Syndrome causes extreme fatigue that can't be explained by any underlying medical condition The fatigue may worsen with physical or mental activity and it doesn't improve with rest Provide your readers with essential information on CFS This book also serves as a historical survey by providing information on the controversies surrounding its causes Compelling first person narratives by people coping with Chronic Fatigue Syndrome give readers a first hand experience Readers will learn from the words of patients family members or caregivers The symptoms causes treatments and potential cures are explained in detail Alternative treatments are also covered Each essay is carefully edited and presented with an introduction so that they are accessible for student researchers and readers Through the Shadowlands Julie Rehmeyer, 2017-05-23 Julie Rehmeyer felt like she was going to the desert to die Julie fully expected to be breathing at the end of the trip but driving into Death Valley felt like giving up surrendering She'd spent years battling a mysterious illness so extreme that she often couldn't turn over in her bed The top specialists in the world were powerless to help and research on her disease chronic fatigue syndrome was at a near standstill Having exhausted the plausible ideas Julie turned to an implausible one Going against both her instincts and her training as a science journalist and mathematician she followed the advice of strangers she'd met on the Internet Their theory that mold in her home and possessions was making her sick struck her as wacky pseudoscience But they had recovered from chronic fatigue syndrome as severe as hers To test the theory that toxic mold was making her sick Julie drove into the desert alone leaving behind everything she owned

She wasn't even certain she was well enough to take care of herself once she was there. She felt stripped not only of the life she'd known but any future she could imagine. With only her scientific savvy, investigative journalism skills, and dog Frances to rely on, Julie carved out her own path to wellness and uncovered how shocking scientific neglect and misconduct had forced her and millions of others to go it alone. In stunning prose, she describes how her illness transformed her understanding of science, medicine, and spirituality. Through *The Shadowlands*, she brings scientific authority to a misunderstood disease and spins an incredible and compelling story of tenacity, resourcefulness, acceptance, and love.

It includes new information on the interaction of the brain, emotions, and immune system as well.

Chronic Fatigue Dr. Walter Tarello, 2024-09-05 Chronic Fatigue is the authentic, fascinating, and riveting account of the author's journey in the heart of darkness of modern medicine. The Chronic Fatigue Syndrome, also known as Myalgic Encephalomyelitis (CFS/ME), describes how he discovered the pathogens that sustain CFS/ME in animals and humans, began to understand their connection, serendipitously found a cure, and is now using that knowledge to help people with Long Covid, the new embodiment of CFS/ME. Both panoramic and personal, it is a must-read book for all those who are looking for answers.

The book is divided into four sections: The Syndromes, Provides an extensive look at the cause, diagnosis, symptoms, and treatments; From current research to clinical trials; The Resources, A comprehensive listing of FMS/CFS books, medical journals, association newsletters, periodicals, and videos recommended by FMS/CFS Associations; The Support, Worldwide listings of FMS/CFS Associations as well as associations for sub-categories of these syndromes, including Advocacy, pain management, alternative therapies, and disability issues. The Life Planner, From diagnoses to acceptance, The Life Planner details how to manage life emotionally and physically. A compassionate look at what to expect, how to work through feelings, goal planning worksheets and charts, exercise, nutritional choices, how to educate family and friends, and work options. Written by a fibromyalgia and chronic fatigue patient, the book outlines not only the journey for the patient but gets to the heart of awakening family and friends to the devastating effects these illnesses cause and provides the tools needed for years to come.
