Other Peoples Anthropologies Ethnographic Practice On The Margins:

Other People's Anthropologies Aleksandar Bošković, 2008-03-01 Anthropological practice has been dominated by the so called great traditions Anglo American French and German However processes of decolonization along with critical interrogation of these dominant narratives have led to greater visibility of what used to be seen as peripheral scholarship With contributions from leading anthropologists and social scientists from different countries and anthropological traditions this volume gives voice to scholars outside these great traditions It shows the immense variety of methodologies training and approaches that scholars from these regions bring to anthropology and the social sciences in general thus enriching the disciplines in important ways at an age marked by multiculturalism globalization and transnationalism [A Possible](#)

[Anthropology](#) Anand Pandian, 2019-10-18 In a time of intense uncertainty social strife and ecological upheaval what does it take to envision the world as it yet may be The field of anthropology Anand Pandian argues has resources essential for this critical and imaginative task Anthropology is no stranger to injustice and exploitation Still its methods can reveal unseen dimensions of the world at hand and radical experience as the seed of a humanity yet to come A Possible Anthropology is an ethnography of anthropologists at work canonical figures like Bronislaw Malinowski and Claude Lévi Strauss ethnographic storytellers like Zora Neale Hurston and Ursula K Le Guin contemporary scholars like Jane Guyer and Michael Jackson and artists and indigenous activists inspired by the field In their company Pandian explores the moral and political horizons of anthropological inquiry the creative and transformative potential of an experimental practice [Intangible Cultural](#)

[Heritage and Reconciliation in the Western Balkans](#) Miloš Milenković, 2024-08-01 This book considers the sensitive heritage elements linked to the very issue of the origins of nations Beliefs rituals and traditional knowledge are examples of intangible cultural heritage ICH which communities globally regard as the core of their cultural identity When it is unclear which element of heritage belongs to whom like in the Western Balkans where the majority of heritage elements are shared ICH disputes exacerbate conflict Its mishandling is especially acute when minority heritage is excluded from governmental cultural policies With a focus on Serbia Croatia Bosnia and Herzegovina and Montenegro this book has a global thematic scope theoretical depth and policy relevance to the scholars of anthropology and heritage studies as well as to those interested in cultural diversity human rights and cultural and educational policies It will serve as a guide for those who professionally use cultural heritage or want to start doing so in the processes of reconciliation stabilization and development

relationship between anthropologists ethnographic investigations and the lived social worlds in which these originate is a fundamental issue for anthropology Where some claim that only native voices may offer authentic accounts of culture and hence that ethnographers are only ever interpreters of it others point out that anthropologists are themselves implanted within specific cultural contexts which generate particular kinds of theoretical discussions The contributors to this volume reject the premise that ethnographer and informant occupy different and incommensurable cultural worlds Instead they investigate the relationship between culture context and anthropologists models and accounts in new ways In doing so they offer fresh insights into this key area of anthropological research *Readings for a History of Anthropological Theory, Fifth Edition* Liam D. Murphy,2017-01-01 The fifth edition of this bestselling reader builds a strong foundation in both classical and contemporary theory with a sharpened focus on gender and anthropology and the anthropology of new media and technology Short introductions and key terms accompany every reading and light annotations have been added to aid students in reading original articles Used on its own or together with A History of Anthropological Theory Fifth Edition this anthology offers a flexible and unrivalled introduction to anthropological theory that reflects not only the history but also the

changing nature of the discipline today **Ethnographies of Deservingness** Jelena Tošić, Andreas Streinzer, 2022-08-12
Claims around who deserves what and why moralise inequality in the current global context of unprecedented wealth and its ever more selective distribution Ethnographies of Deservingness explores this seeming paradox and the role of moralized assessments of distribution by reconnecting disparate discussions in the anthropology of migration economic anthropology and political anthropology This edited collection provides a novel and systematic conceptualization of Deservingness and shows how it can serve as a prime and integrative conceptual prism to ethnographically explore transforming welfare states regimes of migration as well as capitalist social reproduction and relations at large
