Poetry and Writing of the First World War Graham Cooke, 2007-11-21 My grandfather fought in both the Boer and 1st World Wars he never spoke of his experiences When he died we discovered a box containing letters photographs press cuttings and his medals Since then I have tried to piece together his war time record When I tried to teach secondary aged children about the poetry of the 1st World War many found it hard to grasp the enormity of it all until I bought in my grandfather s memorabilia suddenly it all clicked I tried to find a book that would combine the history of the Great War with the poetry and the poets but couldn t find one So I set about writing this book Including all of the Great War poems in their context the book also features a section on the materials my grandfather left and also some research that I have recently done into his family history

The Works of the English Poets, from Chaucer to Cowper Alexander Chalmers, 1810

Confessions of a Recovering Environmentalist and Other Essays Paul Kingsnorth, 2017-08-01 A provocative and urgent essay collection that asks how we can live with hope in an age of ecocide Paul Kingsnorth was once an activist an ardent environmentalist He fought against rampant development and the depredations of a corporate world that seemed hell bent on ignoring a looming climate crisis in its relentless pursuit of profit But as the environmental movement began to focus on sustainability rather than the defense of wild places for their own sake and as global conditions worsened he grew disenchanted with the movement that he once embraced He gave up what he saw as the false hope that residents of the First World would ever make the kind of sacrifices that might avert the severe consequences of climate change Full of grief and fury as well as passionate lyrical evocations of nature and the wild **Confessions of a Recovering Environmentalist** gathers the wave making essays that have charted the change in Kingsnorth's thinking In them he articulates a new vision that he calls dark ecology which stands firmly in opposition to the belief that technology can save us and he argues for a renewed balance between the human and nonhuman worlds This iconoclastic fearless and ultimately hopeful book which includes the much discussed **Uncivilization** manifesto asks hard questions about how we've lived and how we should live
