Investigations Into the Phenomenology and the Ontology of the Work of Art Peer F. Bundgaard, Frederik Stjernfelt, 2015-06-22 This book investigates the nature of aesthetic experience and aesthetic objects Written by leading philosophers psychologists literary scholars and semioticians the book addresses two intertwined issues The first is related to the phenomenology of aesthetic experience The understanding of how human beings respond to artworks how we process linguistic or visual information and what properties in artworks trigger aesthetic experiences The examination of the properties of aesthetic experience reveals essential aspects of our perceptual cognitive and semiotic capacities The second issue studied in this volume is related to the ontology of the work of art Written or visual artworks are a specific type of objects containing particular kinds of representation which elicit a particular kind of experience The research question explored is What properties in artful objects trigger this type of experience and what characterizes representation in written and visual artworks The volume sets the scene for state of the art inquiries in the intersection between the psychology and ontology of art The investigations of the relation between the properties of artworks and the characteristics of aesthetic experience increase our insight into what art is In addition they shed light on essential properties of human meaning making in general *The Music of Meaning* Per Aage Brandt, Ulf Cronquist, 2019-08-30 This book is about meaning in music poetry and language it is about signs symbols icons diagrams and more It concerns art and how we communicate how we make sense to each other including the concept of nonsense It is about metaphor and irony It embraces a vast human universe of signification and some of its cognitive machines of meaning making a complex and diverse unfolding of the expressive human mind These 24 essays study different aspects of the way we signify present recent research and models of such processes and discuss the often intricate problems of understanding the relations between expression and thought In evolution music may have preceded the language of words and music remains indirectly present in every temporal unfolding of bodily affective playful meaningful activity We are immersed in meaning and have to listen to it since it constitutes the semiotic reality structuring the world as we experience it Morphodynamics in Aesthetics Stefania Caliendo, 2019-12-12 This book deals with the complexity of art by focusing on the singularity of the work of art Gathering a selection of writings in art theory and semiotics it explores the question of apprehending art from its perceptual aspects to aesthetic comprehension and understanding Theoretical enquiries focus in particular on the dynamics of the perception of forms the semiotic value of colour the aesthetic phenomenon of empathy the function of vision in relation to other senses and its faculty to lead in a substantial way to the embodiment of sense These theoretical points are constantly observed with reference to the analysis of works of art especially from the beginning of the modern era when a renovated psychophysical approach oriented the evolution of contemporary aesthetics Research into art theories sheds light on how differentials in topologic positions dimensions relationships and tones contribute to the arising of forms and colours in perception and affect the perceiver The

essays presented address in different ways the emergence of sense by conceiving it as deeply anchored to the dynamics of perception in addition to the cognitive disposition and knowledge regardless of whether or not the subject artist or beholder is aware of these processes Through in depth analyses identifying to what extent the aesthetic moment builds on perceptual and semiotic processes works of art are revealed to be singularities reflecting the correlation with morphodynamics in the sciences

07-06-2023, Tra "Etno" e "Semiotica" Paola Donatiello,Giuseppe Mazzarino,2017-02-27 Etnosemiotica è un termine che contiene al suo interno due parole legate a due tradizioni disciplinari specifiche Da un lato abbiamo l'antropologia disciplina che mette al centro l'uomo nelle sue molteplici

forme e declinazioni dall'altra abbiamo la semiotica che si occupa di indagare il senso nelle sue possibili articolazioni. Attraverso sei voci autorevoli Paolo Fabbri, Gianfranco Marrone, Francesco Marsciani, Jacques Fontanille, François Jullien, con questo primo volume si cerca di mettere in luce punti di contatto e criticità tra i due saperi. Con l'intenzione di contribuire al dibattito sempre acceso sulle difficoltà legate alla realizzazione concreta dell'interdisciplinarietà, il volume raccoglie diverse prospettive che regalano al lettore un quadro chiaro e attuale delle problematiche legate alla costituzione dell'etnosemiotica come progetto disciplinare.

Sémiotique des formes de vie Alain Perusset, 2020-11-03. Une étude de sémiotique contemporaine sur la façon dont nous donnons sens nos expériences et revivons nos manières d'être. La vie qu'elle soit humaine ou animale individuelle ou collective ne peut compter que sur elle seule pour persévérer dans son cours et se maintenir dans le monde. Voilà pourquoi elle doit toujours s'activer et souvent emprunter des voies nouvelles lorsque sa persistance est menacée. Le sens est cette direction indéterminée que trace la vie que tracent nos vies. En parcourant le monde nous rencontrons, manipulons et produisons des textes et des objets qui leur tour viennent manifester un sens, celui que nous leur conférons au cours de nos existences et de nos expériences. Nous marquons ainsi toujours d'une empreinte symbolique notre environnement, nous revivons toujours par nos manières d'être et de faire des formes de vie sémiotiques. La fois essai en sciences sociales et introduction générale la sémiotique, ce livre présente une étude complète et critique des formes de vie, une définition détaillée du concept, une clarification quant leur rapport avec les pratiques, les stratégies et les styles de vie, une classification de leurs variétés, enfin une explication de comment elles parviennent à colorer de leurs thèses les milieux humains, nos sphères. Instaurant le dialogue entre sémioticiens actuels et historiques comme Algirdas Julien Greimas ou Roland Barthes, cet ouvrage explore les nouveaux champs sémiotiques de l'expérience et de la culture tout en offrant des pistes et des outils pour étudier et exercer le sens de façon plus claire.
