Principle Of Sufficient Reason In Some Scholastic Systems 1750 1900:

The Principle of Sufficient Reason in Some Scholastic Systems, 1750-1900 John Edwin Gurr, 1959 **Jacques Maritain and the Many Ways of Knowing** Douglas A. Ollivant, 2002

Drawing on the writings of Jacques Maritain and by extension those of Thomas Aquinas the essays in this volume examine the effects of theories of knowledge on individuals culture and entire schools of philosophical thought The contributors challenge contemporary epistemologies which are largely based on writings of Descartes Locke and Kant They critique these theories internally and demonstrate their incompatibility with other goods such as liberty human dignity and access to the transcendent In stark contrast to modernity s dubious and fragmented opinions and belief systems Maritain in works like *The Degrees of Knowledge* and *Creative Intuition in Art and Poetry* proposed a theory of knowledge that permits real if limited knowledge of substances wholes Some contributors use these works as a springboard from which to examine aspects or applications of knowledge that Maritain left unexplored Others challenge or question aspects of Maritain s analysis seeking to improve upon his work Still others compare Maritain with other neo Thomistic philosophers most notably Etienne Gilson Alasdair MacIntyre and Pope John Paul II Maritain s works on human knowledge and the implicit critique of modernity contained within provide an alternative for those seeking to engage the various deficiencies of the culture of death These essays demonstrate the continuing relevance and timeliness of Maritain s thought Douglas A Ollivant is assistant professor of politics at the United States Military Academy Contributors George Anastaplo James Arraj Joseph M de Torre Robert Delfino Raymond Dennehy John M Dunaway Robert Fallon Desmond FitzGerald William J Fossati W Matthews Grant Catherine Green James G Hanink Gregory J Kerr John F X Knasas John F Morris Ralph Nelson Douglas A Ollivant Matthew S Pugh Steven J Schloeder Christopher H Toner John G Trapani Jr Henk E S Woldring and Thomas F Woods This is a valuable collection of articles on an important individual who is still influencing contemporary political thought Lucien J Richard OMI Catholic Library World

The Big Book of Christian Apologetics Norman L. Geisler, 2012-11-01 The Big Book of Christian Apologetics is a comprehensive resource designed to equip motivated believers with information to help defend and explain their faith Examining nearly every key issue person and concept related to Christian apologetics this book clarifies difficult biblical passages clearly explains various philosophical systems and concepts examines contemporary issues and challenges and offers classic apologetic arguments all with the aim of giving readers the background to intelligently and persuasively talk about their Christian faith with skeptics An expertly abridged version of the Baker Encyclopedia on Christian Apologetics this resource brings leading apologist Norman L Geisler s seminal work to the masses

The Cambridge History of Eighteenth-century Philosophy Knud Haakonssen, 2006 This two volume set presents a comprehensive and up to date history of eighteenth century philosophy The subject is treated systematically by topic not by individual thinker school or movement thus enabling a much more historically nuanced picture of the period to be painted

The Principle of Sufficient Reason in Some Scholastic Systems 1750-1900 John Edwin

Gurr (S.I.),1959 The Cosmological Argument from Plato to Leibniz William L. Craig,2001-10-13 Scholastic Metaphysics Edward Feser,2024-09-04 Scholastic Metaphysics A Contemporary Introduction provides an overview of Scholastic approaches to causation substance essence modality identity persistence teleology and other issues in fundamental metaphysics The book interacts heavily with the literature on these issues in contemporary analytic metaphysics so as to facilitate the analytic reader s understanding of Scholastic ideas and the Scholastic reader s understanding of contemporary analytic philosophy The Aristotelian theory of actuality and potentiality provides the organizing theme and the crucial dependence of Scholastic metaphysics on this theory is demonstrated The book is written from a Thomistic point of view but Scotist and Suarezian positions are treated as well where they diverge from the Thomistic position Edward Feser is Associate Professor of Philosophy at Pasadena City College in Pasadena California USA His most recent books include *Aquinas and The Last Superstition A Refutation of the New Atheism* and the edited volume *Aristotle on Method and Metaphysics* *Thomistic Existentialism and Cosmological Reasoning* John F. X. Knasas,2019 Cosmological reasoning is an important facet of classical arguments for the existence of God but these arguments have been subject to many criticisms The thesis of this book is that Thomas Aquinas can dodge many of the classic objections brought against cosmological reasoning These objections criticize cosmological reasoning for its use of the Principle of Sufficient Reason its notion of existence as a predicate its use of ontological reasoning its reliance on sense realism its ignoring of the problem of evil and its susceptibility to the critique of ontotheology as famously put forward by Heidegger Secondly the book proposes that the kind of reasoning found in Aquinas s *De Ente* can be formulated in a more robust version Prompted by Aquinas s admissions that philosophical knowledge of God is the prerogative of metaphysics the second main portion of the book extensively illustrates how the more robust version of the *De Ente* is the interpretive key for Aquinas s many arguments for God Hence the book should be of interest both to philosophers engaged in cosmological reasoning discussion and to Thomists interested in understanding Aquinas s *viae* to God Finally the deep purpose of the book is to reawaken interest in Thomistic Existentialism an interpretation of Aquinas that flourished in the 1950 s in the works of Etienne Gilson Jacques Maritain and Joseph Owens In this interpretation a particular thing s existence is the actuality of the thing in the sense of a distinctive *actus* not translatable into something else for example the fact of the thing or the thing having form This book clearly explains how this interpretation looks at Thomas s metaphysics and why it helps illuminate metaphysical realities

Authentic Metaphysics in an Age of Unreality, Second Edition Leo Sweeney,William J. Carroll,John J. Furlong,2007-03-19 In an age where appearances are often substituted for what really is deception and falsity for honesty and truth this metaphysics book takes things as they actually are and discovers that reality is actuality which as subsistent is God that philosophical knowledge in its content is caused by what is known and is objectively true It considers goodness and beauty human existents as individual relational units e g the family agents and goals chance and evil It is in contrast with Sartrean

existentialism process philosophy linguistic analysis phenomenology hermeneutics and deconstructionism *The Oxford Handbook of the Reception of Aquinas* Matthew Levering, Marcus Plested, 2021-01-14 The Oxford Handbook of the Reception of Aquinas provides a comprehensive survey of Catholic Orthodox and Protestant philosophical and theological reception of Thomas Aquinas over the past 750 years This Handbook will serve as a necessary primer for everyone who wishes to study Aquinas's thought and or the history of theology and philosophy since Aquinas's day Part I considers the late medieval receptions of Aquinas among Catholics and Orthodox Part II examines sixteenth century Western receptions of Aquinas Protestant and Catholic followed by a chapter on sixteenth and seventeenth century Orthodox reception Part III discusses seventeenth century Protestant and Catholic receptions and Part IV surveys eighteenth and nineteenth century receptions Protestant Orthodox and Catholic Part V focuses on the twentieth century and takes into account the diversity of theological movements in the past century as well as extensive philosophical treatment The final section unpicks contemporary systematic approaches to Aquinas covering the main philosophical and theological themes for which he is best known With chapters written by a wide range of experts in their respective fields this volume provides a valuable touchstone regarding the developments that have marked the past seven centuries of Christian theology
