Third Series Library of Congress. Copyright Office,1957 **Economic Regulation of Airports** Di Mei,2025-11-14 This book explores airport charges regulation presenting a fresh perspective on a crucial yet marginalized subject Providing a clear pathway for regulation of the economic aspects of airports specifically charges the book employs an adaptable approach grounded in private law principles Challenging the conventional command and control model of traditional regulation that once governed airports the book contends that an agile private law approach offers a more responsive and efficient means of overseeing airport charges in the face of increasing complexity within the industry Within this overarching approach two key instruments emerge First the book demonstrates the effectiveness of contracts as a powerful tool for integrating regulations on airport charges Second the cultivation of robust corporate governance is posited as a mechanism that naturally instigates effective regulation Through illuminating the efficacy of a private law approach the book demonstrates how this innovative approach not only works as a regulatory mechanism for airport charges but can also be applied within the broader spectrum of infrastructure regulation The book will be of interest to researchers in the field of air law contract law corporate law competition law and aviation business and management employing case studies to illustrate its points Exclusionary Rules in Comparative Law Stephen C. Thaman,2012-12-31 This book is a comparative study of the exclusion of illegally gathered evidence in the criminal trial which includes 15 country studies a chapter on the European Court of Human Rights and a comparative synthetic conclusion No other book has undertaken such a broad comparative study of exclusionary rules which have now become a world wide phenomenon The topic is one of the most controversial in criminal procedure law because it reveals a constant tension between the criminal court s duty to ascertain the truth on the one hand and its duty to uphold important constitutional rights on the other most importantly the privilege against self incrimination and the right to privacy in one s home and one s private communications The chapters were contributed by noted world experts on the subject for the XVIII Congress of the International Academy of Comparative Law in Washington in July 2010
