Representing Time An Essay On Temporality As Modality:

Representing Time Katarzyna Jaszczolt, This title offers a new approach to the representation of meaning of temporally located utterances and discourses Temporality the author suggests should be taken to mean degrees of certainty understood in turn as degrees of acceptability concerning the eventuality referred to in the speaker s utterance **Representing Time** Kasia M. Jaszczolt, 2009-02-26 Thinking and speaking about time is ridden with puzzles and paradoxes How do human beings conceptualize time Why for example does the availability of tense vary in different languages How do the lines of information from tense aspect temporal adverbs and context interact in the mind Does time describe events If real time does not flow where do the concepts of the past present and future come from Are they basic concepts or are they composed out of more primitive constituents And finally what is the semantics of expressions with temporal reference This book offers a new approach to the representation of meaning of temporally located utterances and discourses Temporality the author suggests should be taken to mean degrees of certainty understood in turn as degrees of acceptability concerning the eventuality referred to in the speaker s utterance She presents theoretical arguments and empirical evidence from Indo European and non Indo European languages to show that speakers represent the past present and future as degrees of epistemic modality She argues that temporality can be subsumed under the general label of acceptability or attitude and rather like the semantic category of evidentiality founded on the strength of evidence In the approach she develops modality provides basic conceptual building blocks for the concept of time and at the same time semantic building blocks for representing temporal expressions in her framework of Default Semantics Dr Jaszczolt sets the results of her research in the context of linguistic and philosophical work in semantics and pragmatics Representing Time Katarzyna Jaszczolt, 2009 This book offers a new approach to the representation of meaning of temporally located utterances and discourses Temporality the author suggests should be taken to mean degrees of certainty understood in turn as degrees of acceptability concerning the eventuality referred to in the speaker s utterance Conceptualizations of Time Barbara Lewandowska-Tomaszczyk, 2016-06-14 As time cannot be observed directly it must be analyzed in terms of mental categories which manifest themselves on various linguistic levels In this interdisciplinary volume novel approaches to time are proposed that consider temporality without time on the one hand and the coding of time in language including sign language and gestures on the other The contributions of the volume demonstrate that time is conceptualized not only in terms of space but in terms of other domains of human experience as well Renowned specialists in the study of time the authors of this volume investigate this fascinating topic from a variety of perspectives philosophical linguistic anthropological neuro psychological and computational demonstrating a familiarity with both classical and recent approaches to the study of time and including up to date corpus based methods of study The volume will be of interest to philosophers linguists including specialists in cognitive linguistics corpus linguistics and computational linguistics anthropologists neuro psychologists translators language teachers and graduate students

The Present in Linguistic Expressions of Temporality Marie-Eve Ritz, 2023-11-30 This book offers a comprehensive examination of Present Time Expressions PTEs illustrating how a more informed understanding of their semantic and pragmatic representations can offer unique insights into the temporal systems of languages The volume takes as its point of departure the notion that tenses aspectual viewpoint markers and temporal expressions have a semantic meaning which is further pragmatically enriched and manipulated in use by speakers Building on this foundation the book introduces current theories on the linguistic expression of temporality toward better highlighting the need for further understanding of PTEs encompassing tenses of the present and words such as now The volume draws on data from Australian English and Indigenous Australian languages to support its goal of arriving at a theory of the flexibility of uses of PTEs and their centrality in language and highlight the implications for future research on pragmatic and semantic change This book will be of particular interest to graduate students and researchers in semantics pragmatics discourse analysis and philosophy of language as well as those interested in research on Indigenous Australian Languages and Australian English

Cognitive Approaches to Tense, Aspect, and Epistemic Modality Adeline Patard, Frank Brisard, 2011 This volume addresses problems of semantics regarding the analysis of tense and aspect TA markers in a variety of languages including Arabic Croatian English French German Russian Thai and Turkish Its main interest goes out to epistemic uses of such markers whereby epistemic modality is understood as indicating a degree of compatibility between the modal world and the factual world Declerck All contributions moreover tackle these problems from a more or less cognitive point of view with some of them insisting on the need to provide a unifying explanation for all usage types temporal and non temporal and all of them accepting the premise that the semantics of TA categories essentially refers to subjective rather than objective concerns The volume also represents one of the first attempts to gather accounts of TA marking in various languages that are explicitly set within the framework of Cognitive Grammar Ultimately this volume aims to contribute to establishing an awareness that modal meaning elements are directly relevant to the analysis of the grammar of time

Tense, Aspect, Modality, and Evidentiality Dalila Ayoun, Agnès Celle, Laure Lansari, 2018-08-15 After an introductory chapter that provides an overview to theoretical issues in tense aspect modality and evidentiality this volume presents a variety of original contributions that are firmly empirically grounded based on elicited or corpus data while adopting different theoretical frameworks Thus some chapters rely on large diachronic corpora and provide new qualitative insight on the evolution of TAM systems through quantitative methods while others carry out a collostructional analysis of past tensed verbs using inferential statistics to explore the lexical grammar of verbs A common goal is to uncover semantic regularities and variation in the TAM systems of the languages under study by taking a close look at context Such a fine grained approach contributes to our understanding of the TAM systems from a typological perspective The focus on well known Indo European languages e g French German English Spanish and also on less commonly studied languages e g Hungarian Estonian Avar Andi Tagalog provides a valuable

cross linguistic perspective **The Routledge Handbook of Pragmatics** Anne Barron, Yueguo Gu, Gerard Steen, 2017-01-20 The Routledge Handbook of Pragmatics provides a state of the art overview of the wide breadth of research in pragmatics An introductory section outlines a brief history the main issues and key approaches and perspectives in the field followed by a thought provoking introductory chapter on interdisciplinarity by Jacob L Mey A further thirty eight chapters cover both traditional and newer areas of pragmatic research divided into four sections Methods and modalities Established fields Pragmatics across disciplines Applications of pragmatic research in today s world With accessible refreshing descriptions and discussions and with a look towards future directions this Handbook is an essential resource for advanced undergraduates postgraduates and researchers in pragmatics within English language and linguistics and communication studies **Language and Time** Vyvyan Evans, 2013-10-03 Vyvyan Evans focuses on the linguistic and conceptual resources we make use of when we fix events in time **Expressing the Self** Minyao Huang, Kasia M. Jaszczolt, 2018-02-24 This book addresses different linguistic and philosophical aspects of referring to the self in a wide range of languages from different language families including Amharic English French Japanese Korean Mandarin Newari Sino Tibetan Polish Tariana Arawak and Thai In the domain of speaking about oneself languages use a myriad of expressions that cut across grammatical and semantic categories as well as a wide variety of constructions Languages of Southeast and East Asia famously employ a great number of terms for first person reference to signal honorification The number and mixed properties of these terms make them debatable candidates for pronounhood with many grammar driven classifications opting to classify them with nouns Some languages make use of egophors or logophors and many exhibit an interaction between expressing the self and expressing evidentiality qua the epistemic status of information held from the ego perspective The volume s focus on expressing the self however is not directly motivated by an interest in the grammar or lexicon but instead stems from philosophical discussions on the special status of thoughts about oneself known as de se thoughts It is this interdisciplinary understanding of expressing the self that underlies this volume comprising philosophy of mind at one end of the spectrum and cross cultural pragmatics of self expression at the other This unprecedented juxtaposition results in a novel method of approaching de se and de se expressions in which research methods from linguistics and philosophy inform each other The importance of this interdisciplinary perspective on expressing the self cannot be overemphasized Crucially the volume also demonstrates that linguistic research on first person reference makes a valuable contribution to research on the self tout court by exploring the ways in which the self is expressed and thereby adding to the insights gained through philosophy psychology and cognitive science

Representing Time An Essay On Temporality As Modality: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the captivating narratives that have enthralled audiences this year. Representing Time An Essay On Temporality As Modality : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Representing Time An Essay On Temporality As Modality : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papan, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and suspenseful novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
