Resurrecting Empire Western Footprints And Americas Perilous Path In The Middl:

Resurrecting Empire Rashid Khalidi, 2010-07-01 Begun as the United States moved its armed forces into Iraq Rashid Khalidi's powerful and thoughtful new book examines the record of Western involvement in the region and analyzes the likely outcome of our most recent Middle East incursions Drawing on his encyclopedic knowledge of the political and cultural history of the entire region as well as interviews and documents Khalidi paints a chilling scenario of our present situation and yet offers a tangible alternative that can help us find the path to peace rather than Empire We all know that those who refuse to learn from history are doomed to repeat it Sadly as Khalidi reveals with clarity and surety America's leaders seem blindly committed to an ahistorical path of conflict occupation and colonial rule Our current policies ignore rather than incorporate the lessons of experience American troops in Iraq have seen first hand the consequences of U S led democratization in the region The Israeli Palestinian conflict seems intractable and U S efforts in recent years have only inflamed the situation The footprints America follows have led us into the same quagmire that swallowed our European forerunners Peace and prosperity for the region are nowhere in sight This cogent and highly accessible book provides the historical and cultural perspective so vital to understanding our present situation and to finding and pursuing a more effective and just foreign policy

Indefensible Space Michael Sorkin, 2013-05-13 Showing how the upswell of paranoia and growing demand for security in the post 9 11 world has paradoxically created widespread insecurity these varied essays examine how this anxiety laden mindset erodes spaces both architectural and personal encroaching on all aspects of everyday life Starting from the most literal level barricades and barriers in front of buildings beefed up border patrols gated communities safe rooms to more abstract levels enhanced surveillance at public spaces such as airports increasing worries about contagion the psychological predilection for fortified space the contributors cover the full gamut of securitized public life that is defining the zeitgeist of twenty first century America

Faith Misplaced Ussama Makdisi, 2011-01-19 In this riveting account of U S Arab relations award winning author Ussama Makdisi explores why Arabs once had a favorable view of America and why they no longer do Firmly rejecting the spurious notion of a civilizational clash between Islam and the West Makdisi instead demonstrates how an initial zealous American missionary crusade was transformed across the nineteenth century into a leading American educational presence in the Arab world and how the advent of the idea of Wilsonian self determination amidst wide scale Arab emigration to the United States further bolstered a positive foundational Arab idea of America However a series of subsequent political turning points beginning with the British and French colonial partition of the Arab world in 1920 and culminating in the U S backed creation of Israel in 1948 at the expense of the Palestinians systematically alienated Arabs from America Drawing on both American and Arab sources Makdisi brings to the fore for the first time a wide range of hitherto marginalized Arab perspectives on their multifaceted cultural and political encounters with America Unearthing this neglected history puts current politics and Arab attitudes toward the United States in a crucial historical

perspective By tracing how American missionaries laid the basis for an initial Arab discovery of America and then how later U S policy decisions fueled anti Americanism Makdisi tells a powerful historical tale brimming with contemporary relevance
