

Identifying Reasons (1)

A reading text may contain one or more reasons why an action happens. Identifying *why* things happen helps you better understand the relationship between actions in the text. The reason may come before or after the action or effect. Words that signal reasons include *because* (of), *since*, and *due to*. In the following examples, the reason is underlined:

*Musicians hear better because they learn to pay attention to certain sounds.
Singing words may help stroke patients since it activates a different part of the brain.*

Because of this need to concentrate, musicians hear many sounds better.

A. Identifying. Read the passage below. Circle the words that signal reasons.

How has Western music reached every corner of the world? Researchers believe Western music is popular because of its ability to express emotions across cultures.

Researcher Thomas Fritz played parts of 42 Western songs to members of the Mafa, an ethnic group in Cameroon. Since he wanted to include a variety of Western music types, Fritz played classical, rock, pop, and jazz. He asked the group members to point to pictures of people's faces to show the emotion the music expressed.

The Mafa were able to identify the emotions correctly. This was probably due to the fact that the rhythms and melodies of Western music are similar to the emotional features of human speech.

B. Completion. Complete the sentences with the correct reasons from the passage.

1. Researchers believe Western music is popular _____
2. Thomas Fritz played classical, rock, pop, and jazz _____
3. The Mafa probably identified the emotions correctly _____

Critical Thinking Discuss with a partner. Have you ever used music to help you study or to help you learn something? How did music help?
