vaccine for the looming bird flu epidemic a threat that has forced international federal and local governments to begin
planning for a possible pandemic and the widespread death and devastation which would follow Will the world find an
answer in time Or will we see this threat ravage populations as others have before in 1918 with influenza in the late 18th
century with yellow fever or the horrific black death or bubonic plague in 1347 AD Are these viruses examples of evolution
Did God make microbes by mistake Are they accidents of evolution out of the primordial soup These timely questions are
examined throughout The Genesis of Germs It seems that a new and more terrible disease is touted on the news almost daily
