Model Making Bernard Otte, Arjan Karssen, 2014 This book is a step by step guide to creating convincing architectural models

The Model as Performance Thea Brejzek, Lawrence Wallen, 2017-11-16 The Model as Performance investigates the history and development of the scale model from the Renaissance to the present Employing a scenographic perspective and a performative paradigm it explores what the model can do and how it is used in theatre and architecture The volume provides a comprehensive historical context and theoretical framework for theatre scholars scenographers artists and architects interested in the model's reality producing capacity and its recent emergence in contemporary art practice and exhibition Introducing a typology of the scale model beyond the iterative and the representative model the authors identify the autonomous model as a provocative construction between past and present idea and reality that challenges and redefines the relationship between object viewer and environment The Model as Performance was shortlisted for the best Performance Design Scenography Publication Award at the Prague Quadrennial PQ 2019

Contemporary Studies in Environment and Tourism Recep Efe, Munir Ozturk, 2017-05-11 The tourism industry is striving hard to create attractive worlds for its customers Both as a necessity and as a challenge this field is overwhelmed by the imagination economy but raises several questions about tourists providing opportunities to move deeper into the understanding of complexities involved in relationships among tourists tourism sites and their historical structure and environmental sustainability As a result of this a serious academic interest in tourism has developed over recent decades as a complex aspect of investigation into humans and their environment This volume brings together case studies from different parts of the world focusing on tourism and its interactions with the environment It provides a general outline of theoretical issues and their practicality in different industrialising countries from both the East and the West The book will appeal to researchers involved in tourism studies and environmental interactions as well as academicians and tourism agencies

Architecture and Modelbuilding Alexander Schilling, 2018-09-10 Architectural models are used at various stages of a project As working models they support the design process they are made up from time to time using simple materials such as cardboard without any attempt at accuracy and continue to be adjusted and added to as the ideas and the design progress The point here is to swiftly check a design idea to allow it to be continued or dismissed Presentational models are more involved at this stage the design has been completed and the purpose of the model is to convey the ideas to the potential user in a clear and easy to understand way The book Architecture and Model Building includes outstanding examples explaining the possibilities of this medium and at the same time provides comprehensive information on materials and techniques
