The Search For Our Cosmic Ancestry Nalin Chandra Wickramasinghe, 2014-10-21 The idea that life is a cosmic rather than a purely terrestrial phenomenon has progressed from scientific heresy to mainstream science within the short timespan of a few decades The theory of cometary panspermia developed by Fred Hoyle and the present author in the 1970 s has been vindicated by a spate of new discoveries in astronomy and biology and also with startling new evidence of microbial fossils in meteorites and micrometeorites The recent Kepler Telescope searches for exoplanets have indicated the presence of over 100 billion habitable planets separated by only a few light years thus making panspermia and the transfer of microbial life between such planets an inevitable fact The book presents a comprehensive and up to date account of the Hoyle Wickramasinghe theory of cometary panspermia in a manner accessible to a wide general readership

Our Cosmic Ancestry in the Stars Chandra Wickramasinghe, Ph.D., Kamala Wickramasinghe, Gensuke Tokoro, 2019-05-14 An exploration of how acceptance of panspermia will soon change history Offers extensive scientific proof of panspermia that life arose on Earth via comets and that evolution is seeded by viruses arriving via comets and interstellar dust Explores the major philosophical psychological cultural religious and environmental ramifications of the acceptance of this new scientific worldview Mainstream consensus is that life arose on Earth spontaneously out of primordial soup Yet this theory as well as the Darwinian survival of the fittest concept as it relates to major steps in evolution has no scientific basis or proof Where then did life come from As the authors show with conclusive scientific evidence life came from space a concept known as panspermia We humans and all other life on Earth evolved over millennia in response to viruses that arrived via comets and we continue to do so Exploring the philosophical psychological cultural and environmental ramifications of the acceptance of panspermia the authors show how the shift will be on par with the Copernican Revolution when it was finally accepted that the Earth was not the center of the Universe Explaining the origins of the panspermia theory in the work of the late Sir Fred Hoyle the authors reveal the vast body of evidence that has accumulated over the past 4 decades in favor of the cosmic origins of life including viral inserts found in DNA that have shaped our human genome over millions of years They show how the tiniest of viruses microscopic animals tardigrades and even seeds have been found to be natural cosmonauts The authors also show how space borne viruses play a crucial role in the positive evolution of life and that our entire existence on this planet is contingent on the continuing ingress of cosmic viruses Revealing how panspermia offers answers to some of humanity s longstanding questions about the origins of life the authors discuss the impact this shift in understanding will have on our relationship with the Earth and on culture history and religion And perhaps the most dramatic ramification of all is that acceptance of panspermia means acceptance that Earth is not unique that other life filled planets exist and intelligent life is common in the Universe Not only did we come from space but we are not alone

After the New Age Steven H. Propp, 2008-12-16 Its 1976 and Janet Tanhurst is a teenager who feels stifled by life with her strict mother and the

authoritarian church she must attend Once out of high school however Janet is initiated into a fascinating new world of Astrology Tarot cards and Spirit Mediums Next she encounters the mysterious world of UFOs a bewildering and sometimes frightening realm encompassing ancient astronauts alien abductions and shadowy government conspiracies As the 1980s arrive the Christian dominated Piscean Age seems to be giving way to a long anticipated Aquarian Age with its hope for a coming revolution in higher consciousness There are new paradigms in philosophy and science promoting a holographic conception of the universe as engaged in a Cosmic Dance along with the emergence of an introspective type of instrumental music known as New Age With the help of bookstore owner Whisper Wynn Janet investigates subjects such as reincarnation quartz crystals chakras and the human aura in addition to an exciting new form of spiritual teaching called channeling Following movement leaders including Shirley MacLaine and Marianne Williamson studying enigmatic teachers like G I Gurdjieff and Carlos Castaneda and inspired by medical doctors such as Deepak Chopra and Andrew Weil she learns about Alternative Medicine and Holistic Health as well as traditional health practices from China Japan and India She assimilates wisdom from the ancient Celts along with rituals from contemporary Goddess worshippers in formulating her own unique concept of the Divine that is within us all
