Questioning Authority Questioning Authority:

Questioning Authority Stanley A. Leavy, 2005 Psychoanalysis understood as the criticism of the mind and of the authorities that govern the mind

Questioning Authority Diana M. Judd, 2017-09-08 The West is currently witnessing the slow destruction of the classical liberal tradition The casualties are reason the willingness to question political or religious authority and the validity of natural science Replacing these are a crippling intellectual relativism political apathy and a grave misunderstanding of natural science and its concomitant ethic In this work Diana M Judd gets to the root of the matter by directly addressing the following questions What is modern natural science What effect did it have on how we think about politics What are the dangers surrounding the marginalization of natural science and the liberal intellectual and political tradition This is a work of political theory It seeks to engage the political by addressing the question first posed by the ancient Greeks How ought we to live If we have indeed entered the age of endarkenment where religious dogma intellectual apathy and unquestioned authority increasingly hold sway there is a need now more than ever to explore the meaning and significance of the origins of the modern political and scientific traditions Americans take for granted It is from these traditions that Americans received the ideas of legitimate political resistance reason individual rights religious freedom and natural science The importance of modern natural science and its relationship to these tenets of classical liberalism is the central concern of this book Claims that science is dogmatic and ideological and that the tenets of liberalism divide individuals have become commonplace It is Judd s intention to show how these claims err by exploring what natural science is and how it evolved This ethic centers on the radical idea that authority must be questioned We ignore this to our peril If individuals do not question what leaders say we abdicate the rights and responsibility of self rule and individual freedom

becomes suspicious when one of her colleagues disappears The colleague's sister informs Susan that her brother suspects the administration is raising money on the black market in Vietnam to help finance the president's 1968 re-election The colleague's sister also informs Susan that four Navy SEALs were killed in Vietnam when they intercepted the president's campaign money A car is reported burned with an unidentified body inside the day Susan's colleague disappears Susan suspects her friend was murdered When a man Susan believes to be involved with her colleague's disappearance approaches her she escapes Susan travels to Vietnam with a Navy SEAL she knew from home and uncovers evidence exposing the black market Susan gets caught in the Tet offensive of 1968 and kills a Viet Cong At the time her colleague disappeared Susan was dating a member of the administration Part of the evidence she uncovers in Vietnam proves her boyfriend is involved in the black market Susan and the SEAL travel back to the United States and turn the evidence over to a former boyfriend of Susan's who is an FBI agent The result of uncovering the black market has a devastating effect on the 1968 presidential election

Question Authority Mark Kingwell, 2024-11-05 Philosopher Mark Kingwell thinks about thinking for yourself in an era of radical know-it-allism Question authority the popular 1960s slogan commanded Think for yourself But what started as a counter-cultural catchphrase playful in logic but serious in intent has become a practical paradox Yesterday's social critics are the tone-policing tyrants of today while those who claim colourblindness see no need to engage with critical theory at all The resulting crisis of authority made worse by rival political factions and chaotic public discourse has exposed cracks in every facet of shared social life Politics academia journalism medicine religion science every kind of institutional claim is now routinely subject to objection investigation and outright disbelief A recurring feature of this comprehensive distrust of authority is the firm often unshakeable belief in personal righteousness and superiority what Mark Kingwell calls our addiction to conviction In this critical survey of the predicament of contemporary authority Kingwell draws on philosophical argument personal reflection and details from the headlines in an attempt to reclaim the democratic spirit of questioning authority and thinking for oneself Defending a program of compassionate skepticism *Question Authority* is a fascinating survey of the role of individual humility in public life and illuminates how we might each do our part in the infinite project of justice

Challenging Authority Michael P. Hanagan, Leslie Page Moch, Wayne Ph Te Brake, 1998 As long as there have been formal governments there has been political contention an interaction between ruler and subjects involving claims and counterclaims compliance or resistance cooperation resignation condescension and resentment Where political studies tend to focus on either those who rule or those who are ruled the essays in this volume call our attention to the interaction between these forces at the very heart of contentious politics Written by prominent scholars of political and social history these essays introduce us to a variety of political actors peasants and workers tax resisters and religious visionaries bandits and revolutionaries From Brazil to Beijing from the late Middle Ages to the present all were or are challenging authority The authors take a distinctly historical approach to their subject writing both of specific circumstances and of larger processes While tracing their origins to the social history and structural sociology approaches of the sixties and seventies the contributors have also profited from subsequent critiques of these approaches Taken together their essays demonstrate that the relationship between mobilization for collective action and identity formation is a perennial problem for protest groups a problem that the historical study of contentious politics with its focus on political interaction can do much to explain
