because it was working within apartheid South Africa in the late 1980s When the existence of the project was finally leaked WWF denied any involvement and John Hanks took the fall In Operation Lock and the War on Rhino Poaching John Hanks finally tells the story of these explosive events from 25 years ago As a leading international authority on conservation he also deals with the scourge of rhino poaching up to the present and gives powerful and controversial criticism of some of the current policies to curb poaching

Situational Prevention of Poaching Andrew Lemieux,2014-03-05 For centuries criminologists have looked for scientific ways to study understand and ultimately prevent crime In this volume a unique offense poaching is explored in various contexts to determine what opportunity structures favor this crime and how situational crime prevention may reduce its prevalence The data sources used range from publically available secondary data about animal populations to interviews with hunters to actual law enforcement data collected inside protected areas Various methods are utilized to look for patterns in poaching behaviour regarding where poachers strike which species they target and their modus operandi Collectively the volume shows that principles of criminal opportunity theory and situational crime prevention are useful for studying and preventing poaching in a variety of contexts The methods employed by each chapter are easily replicated and meant to stimulate empirical poaching research where data is available While the theoretical grounding of this volume is drawn from criminology it is written for a broad audience of academics practitioners and those interested in wildlife conservation

Women and Wildlife Trafficking Helen U. Agu,Meredith L. Gore,2022-03-31 This volume examines women and wildlife trafficking via a collection of narratives case studies and theoretical syntheses from diverse voices and disciplines Wildlife trafficking has been documented in over 120 countries around the world While species extinction and animal abuse are major problems wildlife trafficking is also associated with corruption national insecurity spread of zoonotic disease undercutting sustainable development investments and erosion of cultural resources among others The role of women in wildlife trafficking has remained woefully under addressed with

scientists and policymakers failing to consider the important causes and consequences of the gendered dimensions of wildlife trafficking. Although the roles of women in wildlife trafficking are mostly unknown, they are not unknowable. This volume helps fill a lacuna by examining the roles and experiences of women with case studies drawn from across the world, including Mexico, Cameroon, the Central African Republic, South Africa, and Norway. Women can be wildlife trafficking preventors, perpetrators, and pawns; their roles in facilitating wildlife trafficking are considered from both a supply and a demand viewpoint. The first half of the book assesses the range of science offering four different perspectives on how women and wildlife trafficking can be studied or evaluated. The second half of the book profiles diverse case studies from around the world, offering context-specific insight about on-the-ground activities associated with women and wildlife trafficking. This book will be of great interest to students and scholars of wildlife crime, environmental law, human geography, conservation, gender studies, and green criminology. It will also be of interest to NGOs and policymakers working to improve efficacy of efforts targeting wildlife crime, the illegal wildlife trade, and conservation more broadly.
