Exploring Infinity Stephen Janusz, 2013 We have discussed the concepts of eternity evil time witchcraft evolution spirits science and religion The only conclusion is what we previously said of Aristotle Greek philosopher hundreds of years B C The only thing I know is that I don t know We would only hope that what another greater Thinker once said is true that there is the existence of an eternal reward in Nirvana Heaven or after life In this earth the Alpha and the Omega are shielded from our eyes perhaps for our own good Maybe our life is a kind of a training film or as a proving grounds to test our good from our unworthy traits Many stories are told about people who have almost passed to the other side and come back to relate what they have seen These people have no collusion but all have a

common thread a light a tunnel a great expectation Let us hope that their faith can lead to our greatest desire that the Being that gave us these longings has the charity to not let it all end here History repeats itself they say But in order to be gods we will have to be as holy as Buddha Remember the Commandment I am the Lord thy God thou shalt not have strange gods before me The greatest sin was Lucifer s the sin of Pride Let us realize that whatever was the cause Somebody wanted to share creation with us and communicate The Word was God and dwelt among us We have noted that there are explanations of the infinite from people like Confucius Buddha Aristotle Socrates Plato Galileo Newton Goethe Heisenberg Einstein and lately Hawking But only one Person has all the answers JESUS *Quantum Mechanics Demystified* David
