Citizenship in Question Benjamin N. Lawrance, Jacqueline Stevens, 2017-02-02 The contributors to Citizenship in Question demonstrate that the line separating citizenship and noncitizenship is ambiguous and inconsistent. In case studies analyzing the legal barriers to citizenship rights in over twenty countries, the contributors show how states use citizenship requirements to police racial, ethnic, class, and religious difference.

EU Citizenship and Free Movement Rights Sandra Mantu, Paul Minderhoud, Elspeth Guild, 2020-03-31 This collective volume examines how EU citizenship reconstructs in unexpected ways what citizenship as a status means and stands for. EU citizenship can neither be accurately described as a citizenship status similar to national citizenship nor as an immigration one. The book examines the tension at the heart of attempts to grasp the nature of EU citizenship as supranational status in relation to family reunification, social rights, and expulsion. It shows that while events such as Brexit stress the importance of EU citizenship, the construction of supranational citizenship along the axis of non-discrimination and equality remains a work in progress that requires the efforts of all actors involved: institutions, implementing authorities, courts, and citizens.

The Subjects of Ottoman International Law Lâle Can, Michael Christopher Low, Kent F. Schull, Robert Zens, 2020-10-13 The core of this edited volume originates from a special issue of the Journal of the Ottoman and Turkish Studies Association (JOTSA) that goes well beyond the special issue to incorporate the stimulating discussions and insights of two Middle East Studies Association conference roundtables and the important work of additional scholars in order to create a state-of-the-field volume on Ottoman sociolegal studies, particularly regarding Ottoman international law from the eighteenth century to the end of the empire. It makes several important contributions to Ottoman and Turkish studies, namely by introducing these disciplines to the broader fields of trans-imperial studies, comparative international law, and legal history. Combining the best practices of diplomatic history and history from below to integrate the Ottoman Empire and its subjects into the broader debates of the nineteenth-century trans-imperial history, this unique volume represents the exciting work and cutting-edge scholarship on these topics that will continue to shape the field in years to come.

Defining Citizenship in Archaic Greece Alain Duplouy, Roger W. Brock, 2018-03-09 Citizenship is a major feature of contemporary national and international politics but rather than being a modern phenomenon it is in fact a legacy of ancient Greece The concept of membership of a community and participation in its social and political life first appeared some three millennia ago but only towards the end of the fourth century BC did Aristotle offer the first explicit statement about it Though long accepted this definition remains deeply rooted in the philosophical and political thought of the classical period and probably fails to account accurately for either the preceding centuries or the dynamics of emergent cities as such historians are now challenging the application of the Aristotelian model to all Greek cities regardless of chronology and are looking instead for alternative ways of conceiving citizenship and community Focusing on archaic Greece this volume brings together an array of renowned international scholars with the aim of exploring new routes to archaic Greek citizenship and constructing a new image of archaic cities which are no longer to be considered as primitive or incomplete classical poleis The essays collected here have not been tailored to endorse any specific view with each contributor bringing his or her own approach and methodology to bear across a range of specific fields of enquiry from law cults and military obligations to athletics commensality and descent The volume as a whole exemplifies the living diversity of approaches to archaic Greece and to the Greek city combining both breadth and depth of insight with an opportunity to venture off the beaten track
