Where did the immigrants come from?

Between 1870 and 1920, about 20 million Europeans immigrated to the United States. Many of them came from eastern and southern Europe.

Some immigrants came to escape religious persecution. Many others were poor and looking to improve their economic situation. Still others came to experience greater freedom in the United States. Most European immigrants arrived on the East Coast.

A smaller number of immigrants came from Asia. They arrived on the West Coast. About 200,000 Chinese immigrants came between 1851 to 1883. Many Chinese immigrants helped build the nation's first transcontinental railroad. When the United States annexed Hawaii in

1898, several thousand Japanese immigrants came to the United States.

From 1880 to 1920, about 260,000 immigrants arrived from various islands in the Caribbean Sea. They came from Jamaica, Cuba, Puerto Rico, and other islands. Many left their homelands because jobs were scarce.

Many Mexicans came to the United States as well. Some became U.S. citizens when the nation acquired Mexican territory in 1848 as a result of the Mexican War. About a million Mexicans arrived between 1910 to 1930 to escape turmoil in their country.
