Segregation's Science Gregory Michael Dorr, 2008-11-29 Blending social intellectual legal medical gender and cultural history *Segregation's Science Eugenics and Society in Virginia* examines how eugenic theory and practice bolstered Virginia's various cultures of segregation rich from poor sick from well able from disabled male from female and black from white and Native American Famously articulated by Thomas Jefferson ideas about biological inequalities among groups evolved throughout the nineteenth century By the early twentieth century proponents of eugenics the science of racial improvement melded evolutionary biology and incipient genetics with long standing cultural racism The resulting theories taught to generations of Virginia high school college and medical students became social policy as Virginia legislators passed eugenic marriage and sterilization statutes The enforcement of these laws victimized men and women labeled feeble-minded African Americans and Native Americans for over forty years However this is much more than the story of majority agents dominating minority subjects Although white elites were the first to champion eugenics by the 1910s African American Virginians were advancing their own hereditarian ideas creating an effective counter narrative to white scientific racism Ultimately segregation's science contained the seeds of biological determinism's undoing realized through the civil women's Native American and welfare rights movements Of interest to historians educators biologists physicians and social workers this study reminds readers that science is socially constructed the syllogism Science is objective objective things are moral therefore science is moral remains as potentially dangerous and misleading today as it was in the past

Gabriel's Conspiracy Philip J. Schwarz, 2012-12-24 The plans for a large slave rebellion in the Richmond area in 1800 orchestrated by a literate enslaved blacksmith named Gabriel leaked out before they could be executed and he and twenty five other enslaved people were hanged In reaction to the plot the Virginia and other legislatures passed restrictions on free blacks as well as on the education movement and hiring out of the enslaved Although Gabriel's conspiracy is well known among historians documents relating to it have remained relatively inaccessible In *Gabriel's Conspiracy* Philip J Schwarz offers a valuable selection of the documents discovered to date Together with Michael Nicholls's complementary book *Whispers of Rebellion Virginia* these volumes offer a complete account of the quashed slave conspiracy

Keep On Keeping On Brian J. Daugherty, 2016-08-03 Virginia was a battleground state in the struggle to implement *Brown v Board of Education* with one of the South's largest and strongest NAACP units fighting against a program of noncompliance crafted by the state's political leaders *Keep On Keeping On* offers a detailed examination of how African

Americans and the NAACP in Virginia successfully pursued a legal agenda that provided new educational opportunities for the state's black population in the face of fierce opposition from segregationists and the Democratic Party of Harry F Byrd Sr. *Keep On Keeping On* is the first book to offer a comprehensive view of African Americans' efforts to obtain racial equality in Virginia in the later twentieth century. Brian J. Daugherty considers the relationship between the various levels of the NAACP, the ideas and actions of other African American organizations and the stances of Virginia's political leaders: white liberals and moderates and segregationists. In doing so, the author provides a better understanding of the connections between the actions of white political leaders and those of black civil rights activists working to bring about school desegregation. Blending social, legal, southern and African American history, this book sheds new light on the civil rights movement and white resistance to civil rights in Virginia and the South.

Schooling Jim Crow Jay Winston Driskell, 2014-12-03 In 1919 the NAACP organized a voting bloc powerful enough to compel the city of Atlanta to budget 1.5 million for the construction of schools for black students. This victory would have been remarkable in any era, but in the context of the Jim Crow South, it was revolutionary. *Schooling Jim Crow* tells the story of this little-known campaign, which happened less than thirteen years after the Atlanta race riot of 1906 and just weeks before a wave of anti-black violence swept the nation in the summer after the end of World War I. Despite the constant threat of violence, Atlanta's black voters were able to force the city to build five black grammar schools and Booker T. Washington High School, the city's first publicly funded black high school. *Schooling Jim Crow* reveals how they did it and why it matters. In this pathbreaking book, Jay Driskell explores the changes in black political consciousness that made the NAACP's grassroots campaign possible at a time when most black southerners could not vote, let alone demand schools. He reveals how black Atlantans transformed a reactionary politics of respectability into a militant force for change. Contributing to this militancy were understandings of class and gender transformed by decades of racially segregated urban development, the 1906 Atlanta race riot, Georgia's disfranchisement campaign of 1901 and the upheavals of World War I. On this cultural foundation, black Atlantans built a new urban black politics that would become the model for the NAACP's political strategy well into the twentieth century.

A Little Child Shall Lead Them Brian J. Daugherty, Brian Grogan, 2019-05-28 In the twentieth-century struggle for racial equality, there was perhaps no setting more fraught and contentious than the public schools of the American South. In Prince Edward County, Virginia, in 1951 a student strike for better school facilities became part of the NAACP legal campaign for school desegregation. That step ultimately brought this rural agricultural county to the Supreme Court of the United States as one of five consolidated cases in the historic 1954 ruling *Brown v. Board of Education*. Unique among those cases, Prince Edward County took the extreme stance of closing its public school system entirely rather than comply with the desegregation ruling of the Court. The schools were closed for five years, from 1959 to 1964, until the Supreme Court ruling in *Griffin v. County School Board of Prince Edward County* ordered the restoration of public education in the county. This historical anthology brings together court cases, government documents,

personal and scholarly writings speeches and journalism to represent the diverse voices and viewpoints of the battle in Prince Edward County for and against educational equality Providing historical context and contemporary analysis this book offers a new perspective of a largely overlooked episode and seeks to help place the struggle for public education in Prince Edward County into its proper place in the civil rights era

The Punitive Turn Deborah E. McDowell, Claudrena N. Harold, Juan Battle, 2013-11-15 The Punitive Turn explores the historical political economic and sociocultural roots of mass incarceration as well as its collateral costs and consequences Giving significant attention to the exacting toll that incarceration takes on inmates their families their communities and society at large the volume's contributors investigate the causes of the unbridled expansion of incarceration in the United States Experts from multiple scholarly disciplines offer fresh research on race and inequality in the criminal justice system and the effects of mass incarceration on minority groups economic situation and political inclusion In addition practitioners and activists from the Sentencing Project the Virginia Organizing Project and the Restorative Community Foundation among others discuss race and imprisonment from the perspective of those working directly in the field Employing a multidisciplinary approach the essays included in the volume provide an unprecedented range of perspectives on the growth and racial dimensions of incarceration in the United States and generate critical questions not simply about the penal system but also about the inner workings failings and future of American democracy Contributors Ethan Blue University of Western Australia Mary Ellen Curtin American University Harold Folley Virginia Organizing Project Eddie Harris Children Youth and Family Services Anna R Haskins University of Wisconsin Madison Cheryl D Hicks University of North Carolina at Charlotte Charles E Lewis Jr Congressional Research Institute for Social Work and Policy Marc Mauer The Sentencing Project Anoop Mirpuri Portland State University Christopher Muller Harvard University Marlon B Ross University of Virginia Jim Shea Community Organizer Jonathan Simon University of California Berkeley Heather Ann Thompson Temple University Debbie Walker The Female Perspective Christopher Wildeman Yale University Interviews by Jared Brown University of Virginia Tshepo Morongwa Ch ry University of Texas Austin

Word, Like Fire Valerie C. Cooper, 2011 African American theologian Maria Stewart was born free in Connecticut and delivered five speeches in Boston and New York between 1831 and 1833 that were published with other writings by her in 1835 and 1879 as Productions of Mrs Maria W Stewart Though the speeches were highly political Cooper argues that they are also deeply theological and shows how they use the Bible extensively to buttress Stewart's arguments on behalf of blacks and women's rights and empowerment

The Struggle for Change Marvin T. Chiles, 2023-12-28 A Black majority city with a history of the most severe segregation and inequity Richmond is still grappling with this legacy as it moves into the twenty first century Marvin Chiles now offers a unique take on Richmond's racial politics since the civil

rights era by demonstrating that the city's current racial disparities in economic mobility housing and public education actually represent the unintended consequences of Richmond's racial reconciliation measures He deftly weaves municipal politics together with grassroots efforts examining the work and legacies of Richmond's Black leaders from Henry Marsh on the city council in the 1960s to Mayor Levar Stoney to highlight the urban revitalization and public history efforts meant to overcome racial divides after Jim Crow yet which ironically reinforced racial inequality across the city Compellingly written this project carries both local and broader regional significance for Richmonders Virginians southerners and all Americans
