Men's Silences Jonathan Rutherford, 2023-03-31 First published in 1992 *Men's Silences* represents a personal and a political attempt to break out of the narrow parameters of men's sexual politics It focusses on men's feelings to language The early chapters provide a social context for exploring the practice and theorizing of men's sexual politics The book continues by developing an alternative theoretical framework for addressing male subjectivity using Wittgenstein's theory of language and the psychoanalytic theories of Winnicott Bion and Klein The author argues for the centrality of the pre oedipal mother son relationship in the making of male subjectivity language and identity This book will be of interest to students of sociology gender studies political science and cultural studies

Virginia Woolf in Context Bryony Randall, Jane Goldman, 2012-12-17 As a paradigmatic modernist author Virginia Woolf is celebrated for the ways her fiction illuminates modern and contemporary life Woolf scholars have long debated how context whether historical cultural or theoretical is to be understood in relation to her work and how her work produces new insights into context Drawing on an international field of leading and emergent specialists this collection provides an authoritative resource for contemporary Woolf scholarship that explores the distinct and overlapping dimensions of her writings Rather than survey existing scholarship these essays extend Woolf studies in new directions by examining how the author is contextualised today The collection also highlights connections between Woolf and key cultural political and historical issues of the twentieth century such as avant gardism in music and art developments in journalism and the publishing industry political struggles over race gender and class and the bearings of colonialism empire and war
