Practicing Theory In Second Language Writing:

Practicing Theory in Second Language Writing Tony Silva, Paul Kei Matsuda, 2010-01-15 Theory has been used widely in the field of second language writing. Second language writing specialists, teachers, researchers, and administrators have yet to have an open and sustained conversation about what theory is, how it works, and more important, how to practice theory. *Practicing Theory in Second Language Writing* features fourteen essays by distinguished scholars in second language writing who explore various aspects of theoretical work that goes on in the field. *Handbook of Second and Foreign Language Writing* Rosa M. Manchón, Paul Kei Matsuda, 2016-09-12 The *Handbook of Second and Foreign Language Writing* is an authoritative reference compendium of the theory and research on second and foreign language writing that can be of value to researchers, professionals, and graduate students. It is intended both as a retrospective critical reflection that can situate research on L2 writing in its historical context and provide a state of the art view of past achievements, and as a prospective critical analysis of what lies ahead in terms of theory, research, and applications. Accordingly, the *Handbook* aims to provide: i) foundational information on the emergence and subsequent evolution of the field; ii) state of the art surveys of available theoretical and research, basic and applied insights; iii) overviews of research methods in L2 writing research; iv) critical reflections on future developments; and v) explorations of existing and emerging disciplinary interfaces with other fields of inquiry.

Teaching L2 Composition Dana R. Ferris, John Hedgcock, 2014 This popular, comprehensive text to practice text is designed to help teachers understand the task of writing. L2 writers, the different pedagogical models used in current composition teaching, and reading-writing connections. Moving from general themes to specific pedagogical concerns, it includes practice-oriented chapters on the role of genre, task construction, course and lesson design, writing assessment, feedback, error treatment, and classroom language, grammar, vocabulary, style instruction. Although all topics are firmly grounded in relevant research, a distinguishing feature of the text is the array of hands-on, practical examples, materials, and tasks that pre- and in-service teachers can use to develop the complex skills involved in teaching second language writing. Each chapter includes Questions for Reflection, Further Reading, and Resources, Reflection and Review, and Application Activities. An ideal text for L2 teacher preparation courses, courses that include both L1 and L2 students, and workshops for instructors of L2 writers in academic, secondary, and postsecondary settings, the accessible synthesis of theory and research enables readers to see the relevance of the field's knowledge base to their own present or future classroom settings and student writers.

Building Genre Knowledge Christine Tardy, 2009-07-15 Adopting an interdisciplinary perspective, *BUILDING GENRE KNOWLEDGE* provides a unique look into the processes of building genre knowledge while offering a dynamic theory of those processes that is inclusive of both monolingual and multilingual writers, a necessary move in today's linguistically diverse classrooms. It will therefore be of great interest to researchers and practitioners in both first and second language writing studies.
