Re Lucy Gender Dysphoria

Jozef H.H.M. Dorscheidt, Jaap E. Doek

Re Lucy Gender Dysphoria:

Consent for Medical Treatment of Trans and Gender Diverse Youth Steph Jowett, 2022-10-06 Examines the law governing consent to medical treatment for trans youth in Australia England and Wales **Law, Gender Identity, and the Brain** Aileen Kennedy, 2023-12-08 This book challenges law's reliance on neurology's brain sex binary The brain has become the latest candidate in a historical search for a reliable and fixed biological marker of true sex that has permeated every aspect of Western culture including law As definitions of the sexed and gendered body have become ever more contentious the development and dissemination of brain sex theories have come to dominate popular understanding of LGBTI identities But this book argues the brain is no more helpful than earlier biological measures in ensuring just outcomes Examining how law determines and differentiates male and female in two contested areas of sexed identity through a discussion of Australian cases authorising medical interventions to alter the embodied sex characteristics of transgender minors and intersex minors the book demonstrates an incoherence in the legal understanding of gender identity development As the brain too fails as a convincing biological anchor for the binary sex categories of male and female law must it is argued retreat from its aspiration to create define and regulate artificially bounded sex categories of male and female This book will be of great interest to scholars and students in a range of disciplines who are working at the intersection of law gender and sexuality Sexual Orientation, Gender Identity and International Human Rights Law Kerry O'Halloran, 2019-10-22 This book identifies analyses and discusses the nexus of legal issues that have emerged in recent years around sexuality and gender It audits these against specific human rights requirements and evaluates the outcomes as evidenced in the legislation and caselaw of six leading common law jurisdictions Beginning with a snapshot of the legal definitions and sanctions associated with the traditional marital family unit the book examines the subsequently evolving key concepts and constructs before outlining the contemporary international framework of human rights as it relates to matters of sexuality and gender It proceeds by identifying a set of themes including the rights to identity to form a family to privacy to equality and to non discrimination and undertakes a comparative evaluation of how these and other themes indicate areas of commonality and difference in the approaches adopted in those common law jurisdictions as illustrated by the associated legislation and caselaw It then considers why this should be and assesses the implications *Decisional Privacy and the Rights of the Child* Georgina Dimopoulos, 2022-10-14 Decisional privacy gives individuals the freedom to act and make decisions about how they live their lives without unjustifiable interference from other individuals or the state This book advances a theory of a child's right to decisional privacy It draws on the framework of the United Nations Convention on the Rights of the Child and extends the work of respected children's rights scholars to address a significant gap in understanding the interconnections between privacy family law and children's rights It contextualises the theory through a case study judicial proceedings concerning medical treatment for children experiencing gender dysphoria This work argues that recognising a substantive right to

decisional privacy for children requires procedural rights that facilitate children's meaningful participation in decision making about their best interests. It also argues that as courts have increasingly encroached upon decision making regarding children's medical treatment, they have denied the decisional privacy rights of transgender and gender diverse children. This book will benefit researchers, students, judicial officers, and practitioners in various jurisdictions worldwide grappling with the tensions between children's rights, parental responsibilities, and state duties in relation to children's best interests and with the challenge of better enabling and listening to children's voices in decision making processes. Child Welfare and Rights Kerry O'Halloran, 2024-12-31. This book focuses on the role and content of the principle of the welfare interests of the child, considers the extent to which the principle has changed following its varied elevation by the introduction of paramountcy, and reviews the distinction between welfare interests and rights. Providing an updated record of developments in the framework of relevant international law, the book assesses the contemporary relevance of established and emerging themes in the flow of cases dealing with the welfare interests and rights of children in England, Wales, Ireland, the U.S., Canada, Australia, New Zealand, France, and Germany. By identifying and analysing the functions of the principle in hybrid proceedings including adoption from state care and commercial surrogacy, the book completes the analysis of the law relating to children in public care and protection and in private divorce, custody, etc. family law, as a whole, revealing characteristic jurisdictional differences and facilitating a comparative assessment of their significance. By examining the international framework of legislation and related caselaw, it identifies and assesses unfolding themes in the law relating to children. In addition to a digest of international cases and legislation that identifies and tracks the role of this principle in civil and criminal law, lawyers, academics, and other researchers will find a wealth of information on how it has evolved to reflect corresponding changes in society.

Lucy, Uncensored Mel Hammond, Teghan Hammond, 2024-10-08. A road trip through gender identity, self-expression, and the thorny process of figuring out where you fit after high school as an out and proud transgender teen. Lucy imagines college as more than a chance to party with other drama nerds and be roommates with her best friend Callie. College will be her fresh start. For the first time, she'll be able to introduce herself as Lucy to people she hasn't gone to school with since kindergarten. Plus, she happens to live an hour away from one of the most prestigious theater programs in the country. She's always dreamed of going to Central, but when she finally has a chance to visit, it's not what she imagined. While Lucy and Callie are on their campus tour, two kids from their high school make the typical transphobic comments Lucy's gotten used to in her small town. She starts to worry that her dream school might end up being High School 2.0. What if she belongs somewhere else? Somewhere that she can truly have a fresh start? When Lucy finds a beautiful school with a great theater program on a list of the most LGBTQ-friendly colleges, it seems like fate, except that the school is hundreds of miles away. And there's something unexpected about it: it's a women's college. As far as she can tell, they've never admitted a trans woman. Will they let Lucy in? There's only one way to find out. **road trip**
