Consultation Across Cultural Contexts Antoinette Miranda, 2015-11-06 *Consultation Across Cultural Contexts* addresses the challenges that school psychologists face when working in unfamiliar settings and diverse cultural contexts. Establishing first the necessity of understanding and respecting these contexts, this book provides both theoretical background knowledge and a wealth of technical and practical information animated by first hand accounts. Divided into sections that touch upon topics such as difficult teachers and the role of poverty, race and class, the selections include examples from diverse school ecologies, schools in various states of transition, resource challenged schools and more.

The International Handbook of Consultation in Educational Settings Chryse Hatzichristou, Sylvia Rosenfield, 2017-03-16 The rapid changes in the composition of school age youth around the world have catalyzed a growing concern about how to address children's mental health and education. Grounded in this increasingly global perspective, *The International Handbook of Consultation in Educational Settings* is designed to provide a multicultural transnational approach to consultation theory, research, training and practice in educational settings. With chapters written by geographically diverse and prominent scholars across the field of school psychology, this handbook captures the range of ways in which consultation services are trained, implemented and researched internationally. Written for practitioners, researchers, faculty members and graduate students in the fields of school psychology, school counseling, special education and educational psychology, this volume is the first of its kind to provide a comprehensive look at consultation in learning environments across the world. *The International Handbook of Consultation in Educational Settings* offers various perspectives on models, implementation, training and research on school consultation. After an introduction to the volume by the editors, contributors to Part II examine school based consultation around the world to explore how consultation services are implemented in different countries. Part III addresses cross cultural issues in consultation, particularly at a systems level. Part IV presents themes related to processes and issues in the implementation of consultation by focusing on approaches in various countries. The chapters in Part V focus on consultation training, offering insights into the development of students and professionals into effective consultants in cross cultural and systemic contexts. Part VI describes how practitioners can contribute to the body of research on consultation through careful planning and implementation of their work. Finally, the editors summarize key concepts and findings in a concluding chapter.

School Consultation in a Global Context Colleen R. O'Neal, 2025-08-01 *School Consultation in a Global Context* provides theoretical foundations, empirical research, lessons learned and implications for practice in school consultation across distinct cultures and national borders. School psychologists have new opportunities to leverage existing and innovative frameworks, research methods and advocacy supports to provide effective service for culturally diverse populations globally, including refugees. Driven by liberatory, participant centered interventions and research designs, this book is an essential resource for building long term global school consultation partnerships and reaching successful outcomes.
