Reading in the Dark Jessica R. McCort, 2016-04-28 Contributions by Rebecca A Brown Justine Gieni Holly Harper Emily L Hiltz A Robin Hoffman Kirsten Kowalewski Peter C Kunze Jorie Lagerwey Nick Levey Jessica R McCort and Janani Subramanian Dark novels shows and films targeted toward children and young adults are proliferating wildly It is even more crucial now to understand the methods by which such texts have traditionally operated and how those methods have been challenged abandoned and appropriated Reading in the Dark fills a gap in criticism devoted to children s popular culture by concentrating on horror an often neglected genre These scholars explore the intersection between horror popular culture and children s cultural productions including picture books fairy tales young adult literature television and monster movies Reading in the Dark looks at horror texts for children with deserved respect weighing the multitude of benefits they can provide for young readers and viewers Refusing to write off the horror genre as campy trite or deforming these essays instead recognize many of the texts and films categorized as scary as among those most widely consumed by children and young adults In addition scholars consider how adult horror has been domesticated by children s literature and culture with authors and screenwriters turning that which was once horrifying into safe funny and delightful books and films Scholars likewise examine the impetus behind such re envisioning of the adult horror novel or film as something appropriate for the young The collection investigates both the constructive and the troublesome aspects of scary books movies and television shows targeted toward children and young adults It considers the complex mechanisms by which these texts communicate overt messages and hidden agendas and it treats as well the readers experiences of such mechanisms

The Reading Connection Liz Knowles, Martha Smith, 1997-02-15 Establishing a book club is a great way to involve parents in promoting literacy to young readers This book shows you how to start a book club in your school or community and it provides bibliographies of literature resources for children Suggested topics and sample book club sessions help you get started and an extensive bibliography arranged by genre guides teachers parents and students in selecting reading material Chapters cover read alouds picture books horror stories multicultural literature poetry science fiction nonfiction and reference bibliotherapy and problem novels award winning books biographies and books in a series For each genre the authors offer a general overview suggest discussion questions provide a bibliography and list resources for further reading Helpful Internet addresses and additional topics are included in the concluding chapter

Read to Succeed Joy Court, 2011-08-31 Concern about children s reading is an international issue highlighted by continuing OECD research Government actions such as the priority given to reading in the review of the National Curriculum reflect current UK concern

Reading is an essential life skill not only for an individual's development and life chances but for social cohesion and a developed democracy. In an era of public spending cuts it is important to reflect upon the impact that libraries can have in growing readers for the future. This much needed book provides valuable evidence of successes so far both nationally and internationally and offers ideas for future development as well as inspiration for current practice. An edited collection contributed by expert practitioners it covers all aspects of promoting reading to and with children and young people from birth right through to teenage years including the following key topics: the importance of Bookstart; how children begin to read; creating young readers; literacy libraries and literature in New Zealand; the Summer Challenge in libraries; Stockport does Book Idol; restoring reading to the classroom; promoting excellence; shadowing the CILIP Carnegie and Kate Greenaway medals; local book awards; the sport of reading; libraries and partnerships; the hard to reach reader in the 21st century; creative reading; Readership; Offering future scoping for managers and aiming to inspire partnership and cooperation. This will be invaluable reading for practitioners and students of librarianship in both the public and school sectors. It will also be of great interest to all teachers, consultants and educators concerned with literacy and reading and to policy makers in both the school and library sectors.

Teaching With Author Web Sites, K-8 Rose Reissman, Mark Gura, 2010. Drawing on extensive classroom experience the authors demonstrate how shy students, reluctant readers, English language learners and students who may be less active during class discussion become energized when they explore rich Web sites available from popular, respected children's authors. This book illustrates how this easy, no risk technology available at a keystroke offers wide ranging benefits including: Inviting students into a literacy community of readers and writers; Fostering the development of discrete test mandated skills; Capitalizing on and deepening students familiarity with the digital world in ways that enhance their literacy growth.

The Morals of Monster Stories Leslie Ormandy, 2017-08-07. The simplicity of children's picture books, stories told with illustrations and a few well chosen words or none at all, makes them powerful tools for teaching morals and personal integrity. Children follow the story and see the characters' behaviors on the page and interpret them in the context of their own lives. But unlike many picture books, most children's lives don't feature monsters. This collection of new essays explores the societally sanctioned behaviors imparted to children through the use of monsters and supernatural characters. Topics include: monsters as instructors; the normalization of strangers or the other; fostering gender norms and therapeutic monsters among others.

The Challenge of Internet Literacy Lyn Elizabeth M. Martin, 1997. Offers an overview of how the Internet is being used in academic libraries with a focus on the dual role librarians serve as instructors and researchers. Includes discussion of overcoming technophobia; integrating information literacy skills into traditional services; and designing Web pages with descriptions of programs at various institutions. Each chapter contains concise summaries, keyword listings and bibliographies. For academic and instruction librarians and for graduate library students and Internet trainees. Paper edition 0347 3 19 95. Annotation copyrighted by Book News Inc. Portland, OR.

The Curse of the Campfire Weenies David

Lubar,2008-08-26 Thirty five spooky and silly stories featuring vampires ghosts math teachers and other monsters from the award winning author of Invasion of the Road Weenies Another cool collection This would be perfect to read around a campfire or at any sleepover They are creepy but also hilarious Detroit Free Press A boy discovers the answer to one of the great urban mysteries why are pigeons always pooping in parks A second grade class learns why they should always be nice to their math teacher An ancient predator uses the internet to search out its prey A young girl and her little brother escape a campfire weenie only to encounter something even more terrifying a troop of Girl Scouts singing campfire songs For this his third collection of warped and creepy weenie tales critically acclaimed author and master of the macabre David Lubar traveled deep into the shadowy corners of his mind looking for new ways to amuse and terrify his readers And in the tradition of In the Land of the Lawn Weenies and Invasion of the Road Weenies he reveals the inspiration behind each of the thirty five stories at the end of the book This book will talk itself right off the shelves and reluctant readers will devour it School Library Journal

E-literature for Children Len Unsworth,2006 These practical ideas suggestions and real life experiences will help you to understand the differences and similarities of the literary experience for children through classic modern and leading edge narratives in both book and computer formats
