Malaysian Christians Online Meng Yoe Tan, 2020-02-26 Many facets of social life are now intrinsically linked to the Internet through increasing dependence of user centric platforms like blogs social networking websites online forums and open source websites The Malaysian Church is not exempt from having to negotiate with an increasingly tech savvy and networked community of believers Based primarily on Internet ethnography and interviews with Christian bloggers and church pastors this book looks at how the Internet is a component of everyday religion in the lives of Malaysian Christians at individual institutional and national levels It examines the ways in which online Christian expressions are increasingly integrated into the everyday religious routines of Christians for the development of their personal identities and inter religious interactions This book also shows how the spiritual authority of church pastors can be both challenged and reinforced through the creative use of online tools It addresses some of the creative ways in which Christians utilise the Internet to engage with national socio political issues within the context of restrictive and controlled mainstream media as well as the ongoing discourse with Islam in the country Through a selection of case studies this book shows that while the Internet may be free the users of the Internet are not necessarily so While the Internet has provided Malaysian Christians with new tools to experience their faith in new ways several aspects of old offline socio cultural habits persist online These in turn lead to a robust and growing environment of Internet Christianity in Malaysia This timely book will be of interest to scholars in religious studies media and communications and cultural studies in Southeast Asia **Aquinas on the Web?**

Jana Marguerite Bennett, 2012-06-21 The problem of the internet has plagued theologians for the past decade some have claimed it as gnostic and evil because it denies the Christian doctrine of the incarnation and lacks serious engagement with others Some have viewed the internet as presenting good possibilities for theological work because it provides a democratic arena for sharing ideas unrestricted by traditional hierarchies and concerns None of these considerations quite capture the problems or benefits that the internet provides Jana Bennett reviews critically how Web 2 0 both develops from traditional theology and also how Web 2 0 may change the way traditional theology is done Web 2 0 spaces do invite many more lay people to participate in theological conversations than in the past but the conversations frequently become constricted because of the medium At the same time Web 2 0 also offers surprising spaces for renewing or revisiting questions that theologians have left aside The book explores how theologians and other interested persons might carefully respond neither totally rejecting nor wholly embracing Web 2 0 technology *Reading Spiritualities* Dawn Llewellyn, 2016-04-01 The phenomenon of sacred text has undergone radical deconstruction in recent times reflecting how religion has broken out of its traditional definitions and practices and how current literary theories have influenced texts inside the religious domain and beyond *Reading Spiritualities* presents both commentary and vivid examples of this evolution engaging with a variety of reading practices that work with traditional texts and those that extend the notion of text itself The contributors draw on a

range of textual sites such as an interview Caribbean literature drama and jazz women s writings emerging church blogs Neopagan websites the reading practices of Buddhist nuns empirical studies on the reading experiences of Gujarati Christian and post Christian women Chicana short stories the mosque cinema modern art and literature These examples open up understandings of where and how sacred texts are emerging and being reassessed within contemporary religious and spiritual contexts and make room for readings where the spiritual resides not only in the textual but in other unexpected places Reading Spiritualities includes contributions from Graham Holderness Ursula King Michael N Jagessar David Jasper Anthony G Reddie Mich le Roberts and Heather Walton to reflect and encourage the interdisciplinary study of sacred text in the broad arena of the arts and social sciences It offers a unique and well focused snapshot of the textual constructions and representations of the sacred within the contemporary religious climate accessible to the general reader as well as more specialist interests of students and researchers working in the crossover fields of religious theological cultural and literary studies

Spiritual Reading Harvey Angela Lou,2016-11-24 Spiritual Reading explores how God the Bible and the practices of reading are all connected Angela Lou Harvey investigates how the spiritual reading of the Bible takes place in our modern literate Western culture In this context a spiritual reading of the Bible is one that aims to know and love God

through individual Bible reading Spiritual Reading discusses what it means to read the Bible well and looks at the role of the church as giving us guidance for reading it in this way Harvey considers these ideas vis a vis historically orientated biblical scholarship as well as reading the Bible as a classic work of Western literature With reference to the use of literature through a Christian framework in the works of C S Lewis and Alan Jacobs Harvey analyses the significance the Bible has had in shaping other literary works Drawing upon insights of theologians such as Karl Barth Henri de Lubac and Ellen F Davis Spiritual Reading suggests that a renewed understanding of faith is needed for the spiritual reading of Scripture Spiritual Reading is for the reader who wishes to gain a deeper understanding on how Scripture can better connect an individual to God

Christian Initiation of Children - CTL - 2009 , *Liquid Scripture* Jeffrey S. Siker, 2017-09-01 The electronic Bible is here to stay packaged in software on personal computers available as apps on tablets and cell phones Increasingly students look at glowing screens to consult the Bible in class and congregants do the same in Bible study and worship Jeffrey S Siker asks what difference does it make to our experience of Scripture if we no longer hold a book in our hands if we again scroll

through Scripture How does the flow of electronic Scripture change our perception of the Bible's authority and significance Siker discusses the difference made when early Christians adopted the codex rather than the scroll and Gutenberg began the mass production of printed Bibles He also reviews the latest research on how the reading brain processes digital texts and how churches use digital Bibles including American Bible Society research and his own surveys of church leaders Siker asks does the proliferation of electronic translations reduce the perceived seriousness of Scripture Does it promote an individualistic response to the Bible How does the change from a physical Bible affect liturgical practice His synthesis of the advantages and risks of the digitized Bible merit serious reflection in classrooms and churches alike
