asked questions and issues about encounters with wildlife Taking a wildlife friendly approach Tanya Loos provides practical information advice and solutions based on current guidance from wildlife rescue organisations and the latest research Living with Wildlife features helpful advice on wildlife rescue both for every day and during extreme weather events as well as common issues such as feeding wildlife pets and driving As urbanisation and climate change effects intensify Australian wildlife need our help now more than ever making this a timely guide for successfully living alongside our wild neighbours

Last Chance Tourism Harvey Lemelin, Jackie Dawson, Emma J. Stewart, 2013-03 Concerns over vanishing destinations such as the Great Barrier Reef the Everglades of Florida the ice cap on Mt Kilimanjaro and the Maldives have prompted some travel operators and tour agencies to recommend these destinations to consumers before they disappear This is the first book to empirically examine and evaluate this contemporary tourism development providing a new angle on the effects of global change and pressures of visitation on tourism destinations It aims to develop the conceptual definition of last chance tourism examine the ethics surrounding this type of travel and provide case studies highlighting this form of tourism in different regions In particular it critically reviews the advantages of publicizing these vulnerable destinations to raise awareness and promote conservation efforts but also the issue of attracting more tourists seeking to undergo such experiences before they are gone forever accelerating the negative impacts It further examines current trends discusses escalating challenges and highlight future opportunities

Tropical Nature Guillaume Blanc, Mathieu Guérin, Grégory Quenet, 2025-03-01 Across Africa and South East Asia the impulse to protect nature often dovetails with the domination of local people From mass displacement to severe restrictions on land use and daily acts of violence conservation work risks reproducing Eurocentric modes of colonialism and worsening the effects of the climate crisis In this insightful and wide ranging study of the colonial history of conservation Tropical Nature seeks to provide a much needed history of the Global South from its own perspective Comparing case studies ranging from Ali Bongo s Gabon to the postcolonial African itinerary of the agronomist Arthur Bunting this volume advances a small scale global history that deciphers the relations binding human societies to the non human world

Monitoring Threatened Species and Ecological Communities Sarah Legge, Natasha Robinson, Benjamin Scheele, David Lindenmayer, Darren Southwell, Brendan Wintle, 2018-01-20 Monitoring is integral to all aspects of policy and management for threatened biodiversity It is fundamental to assessing the conservation status and trends of listed species and ecological communities Monitoring data can be used to diagnose the causes of decline to measure management effectiveness and to report on investment It is also a valuable public engagement tool Yet in Australia monitoring threatened biodiversity is not always optimally managed Monitoring Threatened Species and Ecological Communities aims to improve the standard of monitoring for Australia s threatened biodiversity It gathers insights from some of the most experienced managers and scientists involved with monitoring programs for threatened species and ecological communities in Australia and evaluates current monitoring programs establishing a baseline against which the quality of

future monitoring activity can be managed Case studies provide examples of practical pathways to improve the quality of biodiversity monitoring and guidelines to improve future programs are proposed This book will benefit scientists conservation managers policy makers and those with an interest in threatened species monitoring and management
