**A Guide to Mystical France** Nick Inman,2016-01-12 France is one of the most visited countries in the world and one of the least known This book takes you beyond the superficial coverage of conventional guidebooks history architecture etc in search of the deeper truths A Guide to Mystical France takes you deep under the psychic skin of France into the invisible dimensions that our materialistic world does its best to ignore Science stops at the most interesting questions To describe say a painted prehistoric cave as a sacred space used for ritual is to beg more questions than it answers It is impossible to fully appreciate the cathedral of Notre Dame Mont St Michel or the alignments of Carnac if you do not understand the reasons these structures were built and the way they have been used over the centuries The book makes no assumptions The reader is not required to believe anything He is merely pointed in the direction of the invisible and the hidden and left to judge for himself You get much more out of a visit if you look for what isn't there as well as what is Only by engaging with such enigmas in an open minded non logical way can we begin to unravel them This approach also makes sightseeing more satisfying and more meaningful Covered here are a multitude of fascinating themes the pilgrimage route to Santiago de Compostela Black Virgins prehistoric cave paintings labyrinths ley lines symbolism and sacred geometry the tarot etc The backdrops for the drama includes such legendary places as Chartres Rennes le Chateau churches carved out of the rock and mountain sanctuaries The cast list meanwhile includes Templars Cathars mystics Gurdjieff King Arthur Nostradamus and alchemists such as the enigmatic Fulcanelli who is rumoured to be immortal *Alternative & Mystical Healing Therapies* Edwin A. Noyes M.D. MPH,2015-10-27 The lies told in the Garden you shall not die and you will become wise like God become a god are the foundational pillars of paganism nature worship From these religions many proclaimed healing methods which are not based on known science have evolved They are a component of pagan spirituality not some healing modality accidentally discovered Such healing practices are the right arm for evangelism in the Neo PaganNew Age movement The devil by deception offers his counterfeit system of healing to entice man to give him the honor and worship due only to Jesus Christ the Divine Son of God Many are deceived into believing that there is no spiritual danger in partaking of these proclaimed healing practices This book exposes the terrible spiritual dangers posed by the New Age holistic health movement which combines valid healing remedies with various mystical healing arts Valuable insights are given herein into the traps of the paranormal from a Christian perspective Today there many who are more interested in health at any cost than Gods will at any price **Catalog of Copyright Entries. and Material Culture contributors consider a range of objects from an eighteenth century bed curtain to a twenty first century shopping trolley which can help historians develop new interpretations and new knowledge about the past. Containing two new chapters on healing objects in East Africa and the shopping trolley in the social world this book examines a variety of material sources from around the globe and across centuries to assess how such sources can be used to study the distant and the recent past. In a revised introduction Karen Harvey discusses some of the principal issues raised when historians use material culture particularly in the context of the material turn and suggests some initial steps for those unfamiliar with these kinds of sources. While the sources are discussed from interdisciplinary perspectives the emphasis of the book is on what historians stand to gain from using material culture as well as what historians have to offer the broader study of material culture. Clearly written and accessible this book is the ideal introduction to the opportunities and challenges of researching material culture and is essential reading for all students of historical theory and method.
