Christian Theological Tradition Catherine Cory, Michael Hollerich, 2015-08-13 This text helps students acquire a basic theological literacy in key persons and events of the Bible and the Christian faith and in Christianity's encounter with culture at large. Historically arranged, it also addresses five major themes of systematic theology: revelation, God, creation, Jesus, and church.

Al-Qaedaism in the Context of Civil War Hakan Kiyici, 2024-02-19 *Al-Qaedaism in the Context of Civil War: The Nexus between Terrorism and Support* explains how al-Qaeda as a terrorist organization has misappropriated the political theory of a Sunni paradigm, developing what is called al-Qaedaism in order to supply more civilian participation and recruitment and to attain global legitimacy in the context of a civil war. It includes a comprehensive analysis of the political, religious, and social practices of al-Qaeda through writings of key ideologues and an examination of the original strategies of the political, social, and religious practices of al-Qaeda.

The Oxford Handbook of Islamic Archaeology Bethany J. Walker, Timothy Insoll, Corisande Fenwick, 2020 Islamic archaeology is a young discipline emerging only over the course of the 1980s and 1990s. *The Oxford Handbook of Islamic Archaeology* is the first work of its kind to cover the archaeology of the Islamic world on a global scale, from North Africa to China and Europe to sub-Saharan Africa.

Art and Religious Reform in Early Modern Europe Bridget Heal, Joseph Leo Koerner, 2017-11-29 The religious turmoil of the sixteenth century constituted a turning point in the history of Western Christian art. The essays presented in this volume investigate the ways in which both Protestant and Catholic reform stimulated the production of religious images, drawing on examples from across Europe and beyond. Eight essays by leading scholars in the field bring art historians and historians into productive dialogue. Broad chronology from the sixteenth to the eighteenth century. Broad geographical coverage. Richly illustrated.

Monumental Fury Matthew Fraser, 2022-11-15 Recent years in America have seen Confederate monuments toppled, statues of colonizers vandalized, and public icons commemorating figures from a history of exploitation demolished. Some were alarmed by the destruction, claiming that pulling down public statues is a negation of an entire cultural heritage. For others, statue smashing is justified vandalism against a legacy of injustice. *Monumental Fury* confronts the long neglected questions of our relationship with statues, icons, and monuments in public spaces, providing a rich historical perspective on iconoclastic violence. Organized according to specific themes that provide insights into the erection and destruction of statues from religion, war, and revolution to colonialism, ideology, art, and social justice, author Matthew Fraser examines the implications of our monuments from the Buddhas of Bamiyan to those of Napoleon Bonaparte, Abraham Lincoln, Robert E. Lee, Vladimir Lenin, and many more. Above all, the book endeavors to frame moments of statue toppling throughout history so we can better understand the eruptions of iconoclastic violence that we are witnessing today. Statues are erected as expressions of power, and the impulse to destroy them is motivated by a desire to defy, reject, and eradicate their authority. However, the symbolic power of statues can stubbornly persist even after their destruction. This enduring paradox between destruction and

resurrection is at the heart of this book Fraser concludes with reflections that propose new ways of thinking about our relationship with statues and monuments and more practically about how we can creatively integrate their legacy into our collective memory in a way that inclusively enriches shared historical experience **Iconoclasm** Rachel F.
