Tibetan Buddhism in Diaspora Ana Cristina O. Lopes, 2014-12-17 The imperialist ambitions of China which invaded Tibet in the late 1940s have sparked the spectacular spread of Tibetan Buddhism worldwide and especially in western countries This work is a study on the malleability of a particular Buddhist tradition on its adaptability in new contexts The book analyses the nature of the Tibetan Buddhism in the Diaspora It examines how the re signification of Tibetan Buddhist practices and organizational structures in the present refers back to the dismantlement of the Tibetan state headed by the Dalai Lama and the fragmentation of Tibetan Buddhist religious organizations in general It includes extensive multi sited fieldwork conducted in the United States Brazil Europe and Asia and a detailed analysis of contemporary documents relating to the global spread of Tibetan Buddhism The author demonstrates that there is a de institutionalized and de territorialized project of political power and religious organization which among several other consequences engenders the gradual autonomization of lamas and lineages inside the religious field of Tibetan Buddhism Thus a spectre of these previous institutions continues to exist outside their original contexts and they are continually activated in ever new settings Using a combination of two different academic traditions namely the Brazilian anthropological tradition and the American

Buddhist studies tradition it investigates the process of cultural re-signification of Tibetan Buddhism in the context of its Diaspora. Thus it will be a valuable resource to students and scholars of Asian Religion, Asian Studies and Buddhism.

Mindscaping the Landscape of Tibet Dan Smyer Yü, 2015-03-30. Based on the author's cross-regional fieldwork, archival findings and critical reading of memoirs and creative works of Tibetans and Chinese, this book recounts how the potency of Tibet manifests itself in modern material culture concerning Tibet, which is interwoven with state ideology, politics of identity, imagination, nostalgia, forgetting, remembering, and earth-inspired transcendence. The physical place of Tibet is the antecedent point of contact for subsequent spiritual imaginations, acts of destruction and reconstruction, collective nostalgia, and delayed aesthetic and environmental awareness shown in the eco-religious acts of native Tibetans. Communist radical utopianism, former military officers' recollections, Tibetan and Chinese artwork, and touristic consumption of the Tibetan landscape. By drawing connections between differences, dichotomies, and oppositions, this book explores the interiors of the diverse agentive modes of imaginations from which Tibet is imagined in China. On the theoretical front, this book attempts to bring forth a set of fresh perspectives on how a culturally and religiously specific landscape is antecedent to simultaneous processes of place-making, identity-making, and the bonding between place and people. North American Buddhists in Social Context, 2008-06-30. This volume marks an important milestone in the growing literature on North American Buddhists, the first multi-author collection of social scientific scholarship on the topic. Chapters examine the current state of research and key aspects of Buddhist life and experience in social context, including group identity and status, religious practices, organizational structures, generational dynamics, relations with non-Buddhist groups, and the larger society and migratory and adaptive processes. Case studies feature Southeast Asian, Japanese, Taiwanese, Korean, meditation-oriented, and socially engaged Buddhists. For social scientists, this volume provides a convenient overview of scholarship heretofore available only piecemeal. All readers will discover how social scientific perspectives and approaches helpfully inform the study of North American Buddhists. **China's Internal and External Relations and Lessons for Korea and Asia** Jung-Ho Bae, Jae H. Ku, Korea Institute for National Unification (South Korea), 2013-12-31. With the coming of so-called G2 era, guaranteeing cooperation with China is a rising strategic task when it comes to the North Korean problem and Korean reunification. There is a clear limit, however, in guaranteeing Chinese cooperation due to the Republic of Korea (ROK) and China's different perceptions on Korean reunification, while economic interdependence between these two states is increasing. In international society, cooperation could be achieved on the basis of shared interests, but issue by issue, shared interests in and of themselves may not be enough. Strategic leverage, in other words, might be necessary in order to induce some kind of interstate cooperation. This research was undertaken in the context of the above-mentioned questions with regard to building up diplomatic leverage that could lead to possible ways to induce Chinese cooperation. This research was undertaken in the context of cooperation with Florence Lowe Lee at the Global America Business Institute, Dr. Jae H. Ku at the U.S. Korea

The Museum on the Roof of the World Clare E. Harris, 2012-10-30 For millions of people around the world Tibet is a domain of undisturbed tradition the Dalai Lama a spiritual guide By contrast the Tibet Museum opened in Lhasa by the Chinese in 1999 was designed to reclassify Tibetan objects as cultural relics and the Dalai Lama as obsolete Suggesting that both these views are suspect Clare E Harris argues in The Museum on the Roof of the World that for the past one hundred and fifty years British and Chinese collectors and curators have tried to convert Tibet itself into a museum an image some Tibetans have begun to contest This book is a powerful account of the museums created by for or on behalf of Tibetans and the nationalist agendas that have played out in them Harris begins with the British public's first encounter with Tibetan culture in 1854 She then examines the role of imperial collectors and

photographers in representations of the region and visits competing museums of Tibet in India and Lhasa Drawing on fieldwork in Tibetan communities she also documents the activities of contemporary Tibetan artists as they try to displace the utopian visions of their country prevalent in the West as well as the negative assessments of their heritage common in China Illustrated with many previously unpublished images this book addresses the pressing question of who has the right to represent Tibet in museums and beyond The Storms Can't Hurt the Sky Gabriel Cohen,2009-03-12 Buddhism has been applied to everything from parenting to golf but until now no one has offered Buddhist principles as a healing path through divorce In Storms Can't Hurt the Sky Gabriel Cohen bravely delves into his personal experience along with insights from Buddhist masters parables humor social science studies and interviews with other divorces to provide a practical and very helpful guide to surviving the pain of any break up Focusing on the emotions most common in the dissolution of a relationship anger resentment loss and grief Storms Can't Hurt the Sky shows how thinking about these feelings in surprisingly different ways can lead to a radically better experience This compulsively readable book offers sound advice and much needed empathy for anyone dealing with a break up **Rebirth** Roger R. Jackson,2022-03-22 For anyone interested in what happens after death this is a definitive guide to the concept of rebirth or reincarnation in Buddhism Reincarnation has been a popular belief in cultures throughout the world for many millennia The possibility that we lived before and may be born again whether as a human or in some other form of existence continues to fascinate us and features heavily in popular novels and movies and also as a subject of recent scholarly studies Although Buddhism is one of the religious traditions best known for asserting rebirth the history and scope of Buddhist approaches to the idea has not received comprehensive treatment until now This first ever guide to ideas and practices surrounding rebirth in Buddhism covers the historical context for the Buddha's teachings on the topic explains what Buddhists believe is actually reborn and where surveys rebirth related practices in multiple Buddhist cultures and considers whether all Buddhist traditions agree about what happens after death The book also addresses interpretations of rebirth in modern Buddhist contexts and recent scientific attempts to document reincarnation in conversation with Buddhist beliefs It is in short the first truly comprehensive overview of rebirth across the major Buddhist traditions written by a leading scholar and teacher of Buddhism *Mr Isherwood Changes Trains* Victor Marsh,2021-01-01 British expatriate writer Christopher Isherwood 1904-1986 moved to America prior to the Second World War and lived more than half his life in California writing for the Hollywood studios Famous initially for the stories he wrote during the rise of the Nazis he attracted a second wave of interest in the 1970s with his out autobiography *Christopher and His Kind* 1976 But much less is known about Isherwood's writing during his forty years as a student of a guru from the Ramakrishna Order In *Mr Isherwood Changes Trains* Victor Marsh interrogates the assumptions and prejudices that have combined to disparage the sincerity of Isherwood's religious life Marsh elucidates those features of Vedanta philosophy that enabled Isherwood to integrate the various aspects of his dharma his vocation as a writer and a spirituality not predicated on

the repudiation of his sexuality Marsh details the heartfelt search for a home self that found expression in later works such as *My Guru and his disciple* and in what is seen as Isherwood's finest novel *A single man* 1964
