Ifi Amadiume

Re Inventing Africa Matriarchy Religion And Culture:

Re-Inventing Africa Ifi Amadiume, 1997-12 This book reveals how conventional anthropology has consistently imposed European ideas of the natural nuclear family women as passive object and class differences on a continent with a long history of women with power doing things differently Amadiume argues for an end to anthropology and calls instead for a social history of Africa by Africans

Reinventing Africa Ifi Amadiume, 2001 *Women and Religion in the African Diaspora* R. Marie Griffith, Barbara Dianne Savage, 2006-09-22 This landmark collection of newly commissioned essays explores how diverse women of African descent have practiced religion as part of the work of their ordinary and sometimes extraordinary lives By examining women from North America the Caribbean Brazil and Africa the contributors identify the patterns that emerge as women religion and diaspora intersect mapping fresh approaches to this emergent field of inquiry The volume focuses on issues of history tradition and the authenticity of African derived spiritual practices in a variety of contexts including those where memories of suffering remain fresh and powerful The contributors discuss matters of power and leadership and of religious expressions outside of institutional settings The essays study women of Christian denominations African and Afro Caribbean traditions and Islam addressing their roles as spiritual leaders artists and musicians preachers and participants in bible study groups This volume s transnational mixture along with its use of creative analytical approaches challenges existing paradigms and summons new models for studying women religions and diasporic shiftings across time and space

Musili, Sylvia Owusu-Ansah, 2024-03-11 This volume focuses on African indigenous women legends and their potential to serve as midwives for gender empowerment and for contributing towards African feminist theories It considers the intersection of gender and spirituality in subverting patriarchy colonialism anthropocentrism and capitalism as well as elevating African women to the social space of speaking as empowered subjects with public influence The chapters examine historical cultural and religious African women legends who became champions of liberation and their approach to social justice The authors suggest that their stories of resistance hold great potential for building justice loving Earth Communities This book will be of interest to scholars of religion gender studies indigenous studies African studies African indigenous knowledges postcolonial studies among others

God, Spirit, and Human Wholeness Elochukwu Eugene Uzukwu, 2012-03-09 The Holy Spirit provides access to relationship with and reflection on the Triune God In West Africa Christians approach the Triune God in a way that challenges the Jewish Christian memory Deeply rooted in their ancestral memory where living is relationality they embrace the Trinitarian faith the economy of the relational God Christ Spirit by expanding and reinventing their indigenous experience of God deities spirits and ancestors Christian faith practice is marked by the spectacular dominance of the Holy Spirit whose charisms reflect the operations of deities African Initiated Churches AICs Protestant and Catholic charismatic movements experience God Spirit s liberating and healing hand for the

enhancement and realization of communal and individual destiny what one expects from a concerned providential deity This book argues that the emergent West African Trinitarian imagination is in harmony with Hebrew insight into the One and Only Yahweh of the patriarchs that assumed the dimensions of Elohim God experienced as a sound of sheer silence by Elijah and proposed in utter weakness as the Only God by Deutero Isaiah the God that Jesus called Abba Father As Spirit and Life the Holy Spirit which is the source of all charisms Origen is our link to the Trinity *The Ashgate Research Companion to Religion and Conflict Resolution* Lee Marsden,2016-03-23 A comprehensive overview of the latest research in religion and conflict resolution this collection of twenty three essays brings together leading scholars in the field examining the contribution religious actors have made and are making towards peace and resolving The Ashgate Research Companion to Religion and Conflict Resolution is primarily aimed at readerships with special interest in conflict resolution international security and religion and international relations and will also serve as a valuable resource for policy makers and conflict resolution practitioners The collection comprises five thematic sections each with chapters on vital and mainly contemporary topics in the field of religion and conflict resolution The principal themes include **Reconfiguring Drinking Cultures, Gender, and Transgressive Selves** Emeka W. Dumbili,2024-03-23 This book presents an in depth analysis of young people s experiences of diverse drinking practices including heavy drinking and drunkenness as fun and pleasurable as they navigate gendered leisure spaces Using qualitative data elicited through semi structured interviews and focus group discussions the analysis engages with theories and concepts of culture gender and transgression to foreground the roles that socio cultural and material elements and human agency play in shaping alcohol consumption in contemporary Nigeria It focuses on the enactment of hyper heterosexual and alternative masculinities and the reconfigurations of passive and non passive femininities through drinking practices It also interrogates how and why multinational alcohol companies are targeting Nigerian women and youths and the extent to which their activities are contributing to changing gendered drinking and sexual practices which are at odds with the extant local norms that promote abstinence moderation among adults and sexual purity among unmarried youths Importantly this book moves beyond solely Western theorizing by drawing on both Western and non Western gender theories to analyze how contemporary Nigerian young men and women do masculinity and femininity with alcohol and will be a valuable resource for social scientists students policymakers practitioners and the general public interested in youth drinking behaviours multinational alcohol companies activities and decolonizing gender scholarship Sex and Sexuality within the Family Context R. Sooryamoorthy,Sampson Lee Blair,2025-11-12 From the marital aspirations of sexual minority transgender young adults to the evolving intimacies of Indian women each chapter provides a unique perspective on how personal and societal factors shape sexual identities and relationships **The Making, Unmaking and Remaking of Africa's Independence and Post-Independence Constitutions** Nicodemus Fru Awasom,Hlengiwe Portia Dlamini,2024-10-09 This book provides a collection of chapters that critically explore the making

and development of Africa's independence constitutions through the different phases in their full generality. Since independence various constitutions from African countries have undergone a succession of changes triggered by either the domestic or international environment or both. These processes constitute autonomous epochal waves or phases of constitution making which need to be unpacked, historicised and explored in a systematic manner. This work intended as a distinctive object of positive analysis historicizes the independence constitutions of selected African states on either a country specific or a comparative basis. A historical approach to the continental study of constitutions is rare meaning the continental coverage of the book is justified by Africa's rich diversity reflected in its multiple monarchical and colonial backgrounds. The book is of interest to academics interested in having a panoramic view of Africa's constitutional development from a historical perspective.

Interface Between Igbo Theology and Christianity Akuma-Kalu

Njoku, Elochukwu Uzukwu, 2014-10-21. Interface between Igbo Theology and Christianity is a timely book that provides new scholarly thinking concerning the convergence of Christianity and Igbo Traditional Religion taking place in the Igbo culture area. This book a fruit of multidisciplinary conversation among Igbo scholars and Igbophiles offers concepts, themes, issues and case studies with deep ethnographic details some of which do not exist anywhere else in print. It is a major statement of how modern Igbo scholars, social scientists, philosophers, theologians, liturgists and active pastors and parish priests understand the intersection of Igbo Traditional Religion and Christianity in postcolonial Nigeria. The editors and authors of the chapters of this book draw from their wealth of experience to offer to students, scholars, researchers, community based organizations and NGOs and practitioners in interfaith dialogue a must have manual to engage in and develop mutual respect and trust among Christian denominations and between them and Igbo Traditional Religion. This book will serve as a blueprint for a deep dialogue among the Igbo in both city and rural settings in the context of clan and community life context and in the Christian parish setting. The book will certainly appeal to numerous communities in Africa wishing to share similar local experiences and collective memories but which do not have the channels to talk about themselves in scholarly writing.
