Creative Web Writing , Passing the Torch Louis Markos, 2025-04-29 What is the purpose and meaning of classical education Imagine a world where education isn t just about information transfer but about shaping the soul where students are nurtured to become virtuous morally self regulating citizens Passing the Torch makes an energetic case for the critical role of classical Christian education in today s world From the pre Christian musings of Plato to the modern reflections of C S Lewis Passing the Torch intertwines the wisdom of diverse epochs to argue for an educational renaissance grounded in classical Christian values Passing the Torch takes educators and parents on a literary and philosophical pilgrimage that includes Bibliographic Essays Each essay serves as a gateway to key texts and influential thinkers making it an invaluable guide for educators and homeschooling parents alike Close Readings Delve into thoughtful examinations of pivotal figures such as Augustine Rousseau and Dorothy Sayers offering an intimate understanding of the moral and educational imperatives they championed Passionate Advocacy Passing the Torch ignites a fervor for the value and necessity of classical Christian education that is both infectious and inspiring In an era where educational paradigms often prioritize technological proficiency over moral formation Passing the Torch is a call to return to the roots of classical Christian education Reflecting on the writings of literary and philosophical giants from Plato and Augustine to C S Lewis and Dorothy Sayers Markos makes a strong case for the benefits of classical education over the modern public education system Library Journal Review April 2025

Virtues of Openness Michael A. Peters, Peter Roberts, 2015-11-17 The movement toward greater openness represents a change of philosophy ethos and government and a set of interrelated and complex changes that transform markets altering the modes of production and consumption ushering in a new era based on the values of openness an ethic of sharing and peer to peer collaboration enabled through new architectures of participation These changes indicate a broader shift from the underlying industrial mode of production a productionist metaphysics to a postindustrial mode of consumption as use reuse and modification where new logics of social media structure different patterns of cultural consumption and symbolic analysis becomes a habitual and daily creative activity The economics of openness constructs a new language of presuming and produsage in order to capture the open participation collective co creativity communal evaluation and commons based production of social and public goods Information is the vital element in the new politics and economy that links space knowledge and capital in networked practices and freedom is the essential ingredient in this equation if these network practices are to develop or transform themselves into knowledge cultures The Virtues of Openness investigates the social processes and policies that foster openness as an overriding educational value evidenced in the growth of open source open access and open education and their convergences that characterize global knowledge communities The book argues that openness seems also to suggest political transparency and the norms of open inquiry indeed even democracy itself as both the basis of the logic of inquiry and the dissemination of its results The Virtues of Openness examines the complex history of the concept of the open society before beginning a systematic investigation of openness in relation to the book the open text and the written word These changes are discussed in relation to the development of new open spaces of scholarship with their impact upon open journal systems open peer review open science and the open global digital economy **Caribbean**
