This book constitutes the proceedings of the 19th International Conference on Web Information Systems and Applications WISA 2022 held in Dalian China in September 2022 The 45 full papers and 19 short papers presented were carefully reviewed and selected from 212 submissions The papers are grouped in topical sections on knowledge graph natural language processing world wide web machine learning query processing and algorithm recommendation data privacy and security and blockchain

NASA Thesaurus, 1988 **Geolocation of RF Signals** Ilir Progri, 2011-01-15 Geolocation of RF Signals Principles and Simulations offers an overview of the best practices and innovative techniques in the art and science of geolocation over the last twenty years It covers all research and development aspects including theoretical analysis RF signals geolocation techniques key block diagrams and practical principle simulation examples in the frequency band from 100 MHz to 18 GHz or even 60 GHz Starting with RF signals the book progressively examines various signal bands such as VLF LF MF HF VHF UHF L S C X Ku and K and the corresponding geolocation requirements per band and per application to achieve required performance objectives of up to 0o precision Part II follows a step by step approach of RF geolocation techniques and concludes with notes on state of the art geolocation designs as well as advanced features found in signal generator instruments Drawing upon years of practical experience and using numerous examples and illustrative applications Ilir Progri provides a comprehensive introduction to Geolocation of RF Signals and includes hands on real world

labs and applications using MATLAB in the areas of RF signals specifications RF geolocation distributed wireless communications networks and RF geolocation Geolocation of RF Signals Principles and Simulations will be of interest to government agency program managers industry professionals and engineers academic researchers faculty and graduate students who are interested in or currently designing developing and deploying innovative geolocation of RF Signal systems

Advanced Methodologies and Technologies in Network Architecture, Mobile Computing, and Data Analytics

Khosrow-Pour, D.B.A., Mehdi, 2018-10-19 From cloud computing to data analytics society stores vast supplies of information through wireless networks and mobile computing As organizations are becoming increasingly more wireless ensuring the security and seamless function of electronic gadgets while creating a strong network is imperative Advanced Methodologies and Technologies in Network Architecture Mobile Computing and Data Analytics highlights the challenges associated with creating a strong network architecture in a perpetually online society Readers will learn various methods in building a seamless mobile computing option and the most effective means of analyzing big data This book is an important resource for information technology professionals software developers data analysts graduate level students researchers computer engineers and IT specialists seeking modern information on emerging methods in data mining information technology and wireless networks
