Sex, Feminism and Lesbian Desire in Women's Magazines Kate Farhall, 2020-09-14 This book examines evolving pop culture representations of sex and relationships from the 1970s onwards to demonstrate parallels between the strength of the feminist movement and positive portrayals of women s sexuality In charting changes in the sex and relationship content of women s magazines over time this analysis reveals that despite surface level changes in sexual and relationship content the underlying paradigm of hetero monogamy remains unchanged Despite a seemingly more diverse empowered and liberated sexuality for women in contemporary magazines in reality such feminist rhetoric masks an enduring model of sexuality which rests on women s sexual and emotional maintenance of male partners and their own self objectification and self surveillance Where substantive changes can be identified they rise and fall in tandem with feminism By demonstrating this empirical relationship between cultural products and feminist organising the book validates an assumption that has rarely been tested that a feminist social milieu improves cultural narratives about sexuality for women Sex Feminism and Lesbian Desire builds on ground breaking feminist texts such as Susan Faludi s Backlash to present an empirically focused comprehensive study interrogating changes in content over the lifetime of women s magazines By charting the representation of sex and relationships in two women s magazines Cosmopolitan and Cleo since the 1970s through an analysis of over 6 500 magazine pages and 1 500 articles this timely work interrogates and ultimately complicates the apparent linear progression of feminism This book is suitable for researchers and students in women s and gender studies queer studies LGBT studies media studies cultural studies and sociology

Supporting Reading in Grades 6-12 Sybil M. Farwell, Nancy L. Teger, 2012-06-11 This book presents a curricular framework for students grades 6 12 that school librarians and teachers can use collaboratively to enhance reading skill development promote literature appreciation and motivate young people to incorporate reading into their lives beyond the required schoolwork Supporting Reading Grades 6 12 A Guide addresses head on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students motivation and test scores The book provides a comprehensive framework

for achieving this the READS curriculum which stands for Read as a personal activity Explore characteristics history and awards of creative works Analyze structure and aesthetic features of creative works Develop a literary based product and Score reading progress Each of these five components is explained thoroughly describing how school librarians can encourage students to read as individuals in groups and as school communities support classroom teachers instruction and connect students to today s constantly evolving technologies Used in combination with an inquiry information skills model the READS curriculum enables school librarians to deliver a dynamic balanced library program that addresses AASL s Standards for the 21st Century Learner **Reading and the Reference Librarian** Juris Dilevko,Lisa Gottlieb,2014-10-16

Reference librarians are no longer expected to know much about the information they find they are merely expected to find it Technological competency rather than knowledge has become the order of the day In many respects reference service has become a matter of typing search terms into a library s online catalog or a web search engine and providing the patron with the results of the search Calling for a re intellectualization of reference librarianship this book suggests another approach to providing quality reference service reading The authors surveyed both academic reference librarians and public library reference personnel in the United States and Canada about their reading habits From the 950 responses the authors present findings about the extent to which librarians read newspapers periodicals fiction and nonfiction and recount and analyze stories about how reading has made them better librarians The authors also report that North American professors in the humanities and social sciences believe that the best reference librarians are those who have wide ranging subject based knowledge as opposed to the type of process based functional knowledge that is increasingly dominating the curricula of many Library and Information Science programs
