Where the Millennials Will Take Us Barbara J. Risman, 2018 Are today's young adults gender rebels or returning to tradition In *Where the Millennials Will Take Us* Barbara J. Risman reveals the diverse strategies youth use to negotiate the ongoing gender revolution Using her theory of gender as a social structure Risman analyzes life history interviews with a diverse set of Millennials to probe how they understand gender and how they might change it Some are true believers that men and women are essentially different and should be so Others are innovators defying stereotypes and rejecting sexist ideologies and organizational practices Perhaps new to this generation are gender rebels who reject sex categories often refusing to present their bodies within them and sometimes claiming genderqueer identities And finally many youths today are simply confused by all the changes swirling around them As a new generation contends with unsettled gender norms and expectations Risman reminds us that gender is much more than an identity it also shapes expectations in everyday life and structures the organization of workplaces politics and ideology To pursue change only in individual lives Risman argues risks the opportunity to eradicate both gender inequality and gender as a primary category that organizes social life *Reading Science/Fiction* Amy C. Chambers, Lisa Garforth, Miranda Jeanne Marie Iossifidis, Joanna Verran, 2025-09-30 This book explores the relationship between reading science in fiction and engaging with science Focusing on embodied readers and empirical approaches to fiction reading the authors examine contemporary social cultural biographical and political contexts in which science fictions come to matter Drawing together a distinctive set of research studies and conceptual resources the book outlines theories epistemologies and methodologies for understanding how and why we read science fictions and fictions about science *Devour* L. A. Larkin, 2016-07-06 Their greatest fear was contaminating an ancient Antarctic lake buried beneath the ice for millions of years They little knew the catastrophe they were about to unleash Welcome to the high octane world of Olivia Wolfe As an investigative journalist Wolfe lives her life in constant peril Hunted by numerous enemies who are seldom what they first seem she must unravel a complex web of lies to uncover an even more terrifying truth From the poppy palaces of Afghanistan and Antarctica's forbidding wind swept ice sheets to a top secret military base in the Nevada desert Wolfe's journey will ultimately lead her to a man who would obliterate civilisation She must make an impossible choice save a life or prevent the death of millions Praise for L. A. Larkin In *Larkin* Michael Crichton has an heir apparent *The Guardian* Larkin's fast action style is accompanied by impressive research *The Times* Olivia Wolfe delivers action and intrigue in spades Peter James **Girl Wide Web** Sharon R. Mazzarella, 2005 Given the rapidly growing presence of girls online serious academic inquiry into the relationship between girls and the Internet is imperative *Girl Wide Web* is an innovative collection of cutting edge research exploring a wide sweep of issues related to the ways adolescent girls interact with the Internet Employing a range of methodologies and theoretical perspectives primarily within cultural studies the authors examine a variety of topics from instant messaging and web diaries to online fan communities and Internet

advertising that targets young girls Taken together these essays provide a rich portrait of the complex relationship among girls the Internet and the negotiation of identity

Understanding Reddit Elliot T. Panek, 2021-12-24 This book offers a comprehensive scholarly overview of Reddit one of the most popular and least studied social platforms of the early 21st century The book inspires new ways of thinking about Reddit considering it from multiple perspectives through a historical lens as a site where identity is forged as a democracy as a community and as a news aggregator and distributor By bringing theories from computer mediated communication communication studies and sociology to bear on original large scale observational analyses of Reddit s communities this book provides a uniquely comprehensive overview of the platform s first 15 years Understanding Reddit will help us make sense of how rapidly growing communities function in an era of mass online anonymity Serving both as a primer on how social behavior on Reddit plays out and as a way of locating it within multiple theoretical traditions the book will offer important insights to scholars and students in the disciplines of communication media studies information science internet and emerging media studies and sociology

Gilmore Girls and the Politics of Identity Ritch Calvin, 2014-11-21 This work examines the Gilmore Girls from a post feminist perspective evaluating how the show s main female characters and supporting cast fit into the classic portrayal of feminine identity on popular television The book begins by placing Gilmore Girls in the context of the history of feminism and feminist television shows such as Mary Tyler Moore and One Day at a Time The remainder of the essays look at series portrayal of traditional and non traditional gender identities and familial relationships Topics include the hyper real utopia represented by Gilmore Girls fictional Stars Hollow the faux feminist perspective offered by Rory Gilmore s unfulfilling and often masochistic romantic relationships the ways in which mean girl Paris Geller both adheres to and departs from the traditional archetype of female power and aggression and the role of Lorelai Gilmore s oft criticized marriage in destroying the show s central theme of single motherhood during its seventh season The work also studies the role of food and its consumption as a narrative device throughout the show s development evaluating the ways in which food negotiates defines and upholds the characters gendered and class performances The work also includes a complete episode guide listing the air date title writer and director of every episode in the series

Custodians of the Internet Tarleton Gillespie, 2018-06-26 A revealing and gripping investigation into how social media platforms police what we post online and the large societal impact of these decisions Most users want their Twitter feed Facebook page and YouTube comments to be free of harassment and porn Whether faced with fake news or livestreamed violence content moderators who censor or promote user posted content have never been more important This is especially true when the tools that social media platforms use to curb trolling ban hate speech and censor pornography can also silence the speech you need to hear In this revealing and nuanced exploration award winning sociologist and cultural observer Tarleton Gillespie provides an overview of current social media practices and explains the underlying rationales for how when and why these policies are enforced In doing so Gillespie highlights that

content moderation receives too little public scrutiny even as it shapes social norms and creates consequences for public discourse cultural production and the fabric of society Based on interviews with content moderators creators and consumers this accessible timely book is a must read for anyone who's ever clicked like or retweet LGBT People and the UK Cultural Sector John Vincent, 2016-05-06 This book examines the complex and conflicting relationships between LGBT people and our cultural and heritage organisations including libraries museums and archives In this unique book established author John Vincent draws together current good practice and also highlights issues which urgently still need to be addressed To set the work of libraries museums and archives in context Vincent traces the development of LGBT rights in the UK He goes on to examine some of the reasons for hostility and hatred against this minority group and critically explores provision that has been made by cultural and heritage organisations He offers examples of good practice not only from the UK but from across the world and draws up an essential charter for future development This compelling practical book should be read by managers and staff in libraries museums and archives around the world looking for guidance on this important issue

Authority Andrea Long Chu, 2025-04-08 A bold provocative collection of essays on one of the most urgent questions of our time What is authority when everyone has an opinion on everything Since her canonical 2017 essay On Liking Women the Pulitzer Prize winning critic Andrea Long Chu has established herself as a public intellectual straight out of the 1960s With devastating wit and polemical clarity she defies the imperative to leave politics out of art instead modeling how the left might brave the culture wars without throwing in with the cynics and doomsayers Authority brings together Chu's critical work across a wide range of media novels television theater video games as well as an acclaimed tetralogy of literary essays first published in 2011 Chu places The Phantom of the Opera within a centuries old conflict between music and drama questions the enduring habit of reading Octavia Butler's science fiction as a parable of slavery and charges fellow critics like Maggie Nelson and Zadie Smith with a complacent humanism Criticism today is having a crisis of authority but so says every generation of critics In two magisterial new essays Chu offers a revised intellectual history of this perennial crisis tracing the surprisingly political contours of criticism from its origins in the Enlightenment to our present age of social media Rather than succumbing to an endless cycle of trumped up emergencies Authority makes a compelling case for how to do criticism in light of the genuine crises from authoritarianism to genocide that confront us today *Understanding Problem-based Learning* Esa Poikela, Anna Raija Nummenmaa, 2006
