Tacitus, Annals, 15.20-23, 33-45 Mathew Owen,Ingo Gildenhard,2013-09-23 e emperor Nero is etched into the Western imagination as one of ancient Rome s most infamous villains and Tacitus Annals have played a central role in shaping the mainstream historiographical understanding of this flamboyant autocrat This section of the text plunges us straight into the moral cesspool that Rome had apparently become in the later years of Nero s reign chronicling the emperor s fledgling stage career including his plans for a grand tour of Greece his participation in a city wide orgy climaxing in his publicly consummated marriage to his toy boy Pythagoras the great fire of AD 64 during which large parts of central Rome went up in flames and the rising of Nero s grotesque new palace the so called Golden House from the ashes of the city This building project stoked the rumours that the emperor himself was behind the conflagration and Tacitus goes on to present us with Nero s gruesome efforts to quell these mutterings by scapegoating and executing members of an unpopular new cult then starting to spread through the Roman empire Christianity All this contrasts starkly with four chapters focusing on one of Nero s most principled opponents the Stoic senator Thrasea Paetus an audacious figure of moral fibre who courageously refuses to bend to the forces of imperial corruption and hypocrisy This course book offers a portion of the original Latin text study aids with vocabulary and a commentary Designed to stretch and stimulate readers Owen s and Gildenhard s incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level It extends beyond detailed linguistic analysis and historical background to encourage critical engagement with Tacitus prose and discussion of the most recent scholarly thought

Garbage Land Elizabeth Royte,2007-10-15 Out of sight out of mind Into our trash cans go dead batteries dirty diapers bygone burritos broken toys tattered socks eight track cassettes scratched CDs banana peels But

where do these things go next In a country that consumes and then casts off more and more what actually happens to the things we throw away In *Garbage Land* acclaimed science writer Elizabeth Royte leads us on the wild adventure that begins once our trash hits the bottom of the can Along the way we meet an odor chemist who explains why trash smells so bad garbage fairies and recycling gurus neighbors of massive waste dumps CEOs making fortunes by encouraging waste or encouraging recycling often both at the same time scientists trying to revive our most polluted places fertilizer fanatics and adventurers who kayak amid sewage paper people steel people aluminum people plastic people and even a guy who swears by recycling human waste With a wink and a nod and a tightly clasped nose Royte takes us on a bizarre cultural tour through slime stench and heat in other words through the back end of our ever more supersized lifestyles By showing us what happens to the things we've disposed of Royte reminds us that our decisions about consumption and waste have a very real impact and that unless we undertake radical change the garbage we create will always be with us in the air we breathe the water we drink and the food we consume Radiantly written and boldly reported *Garbage Land* is a brilliant exploration into the soiled heart of the American trash can
