The Class Sonia Livingstone, Julian Sefton-Green, 2016-05-03 An intimate look at how children network identify learn and grow in a connected world Read Online at connectedyouth.nyupress.org Do today's youth have more opportunities than their parents As they build their own social and digital networks does that offer new routes to learning and friendship How do they navigate the meaning of education in a digitally connected but fiercely competitive highly individualized world Based upon fieldwork at an ordinary London school The Class examines young people's experiences of growing up and learning in a digital world In this original and engaging study Livingstone and Sefton Green explore youth values teenagers perspectives on their futures and their tactics for facing the opportunities and challenges that lie ahead The authors follow the students as they move across their different social worlds in school at home and with their friends engaging in a range of activities from video games to drama clubs and music lessons By portraying the texture of the students everyday lives The Class seeks to understand how the structures of social class and cultural capital shape the development of personal interests relationships and autonomy Providing insights into how young people's social digital and learning networks enable or disempower them Livingstone and Sefton Green reveal that the experience of disconnections and blocked pathways is often more common than that of connections and new opportunities

Teaching with Harry Potter Valerie Estelle Frankel, 2013-02-06 The Harry Potter phenomenon created a surge in reading with a lasting effect on all areas of culture especially education Today teachers across the world are harnessing the power of the series to teach history gender studies chemistry religion philosophy sociology architecture Latin medieval studies astronomy SAT skills and much more These essays discuss the diverse educational possibilities of J K Rowling's books Teachers of younger students use Harry and Hermione to encourage kids with disabilities or show girls the power of being brainy scientists Students are reading fanfiction splicing video clips or exploring Rowling's new website Pottermore Harry Potter continues to open new doors to learning

A Beautiful Anarchy: How to Create Your Own Civilization in the Digital Age Jeffrey Tucker, 2012 A Beautiful Anarchy How to Create Your Own Civilization in the Digital Age is Jeffrey Tucker's rhapsodic hymn to the digital age and a call to use the tools it has granted us to enhance human freedom and reduce and end intellectual dependency on the state It shows that every truly valuable aspect of our lives extends not from politics and the regime but from our own voluntary choices The aims of A Beautiful Anarchy are 1 to draw attention to the reality that surrounds us but we hardly ever bother to notice much less celebrate 2 to urge a willingness to embrace this new world as a means of improving our lives regardless of what the anachronistic institutions of power wish us to do 3 to elucidate the causes and effects that have created this new world and 4 to urge more of the good institutions that have created this beautiful anarchy This book covers the uses of social media the blessed end of the nation state the way the government is destroying the physical world the role of commerce in saving humanity the depredations of nation state monetary policy the evil of war and the lie of national security and private societies

as agents of liberation And it offers a hopeful prognosis for a creative and productive world without central control The book is topical pithy and anecdotal yet points to the big ideas and the larger picture to help frame the great economic and political debates of our time Book description Amazon com
